Message from the Executive Director

Welcome to the VA Western Colorado Health Care System! We are honored to have you join our community and entrust us with your health and well-being. As the Director, I want to personally assure you that our dedicated team is here to provide you with the highest quality care and support.

At VA Western Colorado, we are committed to delivering

comprehensive, compassionate, and personalized services tailored to meet the unique needs of our Veterans. Our facilities are equipped with state-of-the-art technology, and our staff is comprised of skilled professionals who are passionate about serving those who have served our country.

We understand that navigating a new health care system can be overwhelming, and we are here to assist you every step of the way. Whether you need medical treatment, mental health support, or assistance with benefits and resources, our goal is to make your experience as comfortable and seamless as possible.

Please do not hesitate to reach out to any of our team members with questions or concerns. We are here to listen, help, and ensure you receive the care you deserve.

Thank you for choosing VA Western Colorado Health Care System. We look forward to partnering with you on your path to health and wellness.

Richard W. Salgueiro, FACHE

Executive Director

VA Western Colorado Health Care System

About the VA Western Colorado Health Care System

The Veteran Affairs (VA) Western Colorado Health Care System (WCHCS) serves 17 counties across western Colorado and Utah, encompassing over 47,000 square miles. This health care network includes five care sites: the VA Medical Center in Grand Junction, Colorado, and four outpatient clinics located in Craig, CO, Glenwood Springs, CO, Montrose, CO, and Moab, UT.

The Grand Junction VA Medical Center is authorized to operate 77 beds, which include 31 Community Living Center beds, 5 ICU beds, 14 Medical/Surgical beds, 6 Psychiatry beds, and 18 beds at the Mesa Center for Recovery (SARTTP). The facility also features a 5-bed Emergency Department.

The Grand Junction VA Medical Center collaborates with several teaching programs and is affiliated with St. Mary's Regional Hospital. Across the healthcare system, services encompass medical and surgical care, psychiatric treatment, physical rehabilitation, dental services, comprehensive wellness programs, pain management, intensive outpatient substance abuse treatment, hospice care, transitional care, and integrated case management. Moreover, the WCHCS places a strong emphasis on providing personalized and patient-centered care, ensuring that each Veteran receives the attention and treatment tailored to their specific needs. This commitment extends beyond medical treatments to include support services designed to improve overall quality of life.

For Veterans facing housing instability, the Homeless Veterans (HUD-VASH) program offers essential resources and support to help secure safe and stable housing. The system also provides specialized programs for women Veterans, recognizing the unique challenges they may face and ensuring access to comprehensive health care services that address their specific needs.

Telehealth services are increasingly integrated into the WCHCS, allowing Veterans in remote areas to access quality care without the need to travel long distances. This includes virtual consultations with primary care providers, mental health professionals, and specialists, ensuring continuity of care and convenience for Veterans.

The WCHCS is also actively involved in Veteran outreach initiatives, working to educate Veterans about available services and benefits. Community partnerships play a crucial role in these efforts, fostering a supportive network that extends beyond the healthcare facilities.

Through continuous improvement and innovation, the WCHCS strives to honor the service and sacrifice of Veterans by providing exceptional health care and support. The dedication of the staff and the comprehensive range of services underscore the system's mission to enhance the health and well-being of Veterans across western Colorado and Utah.

Who is Eligible for VA Health Care Benefits?

VA provides world-class health care to eligible Veterans. The Veterans Health Administration is America's largest integrated health care system, with more than 1,200 sites of care, and it is consistently ranked among the nation's top health care providers.

Many Veterans may be eligible for VA health care. Enrollment in VA health care satisfies your Affordable Care Act health coverage requirement — no add-on insurance plan is needed.

VA encourages you to explore your health care benefits, including the following services:

- All enrolled Veterans have access to VA's comprehensive medical benefits package including preventive, primary, and specialty care; prescriptions; mental health care; home health care; geriatrics and extended care; medical equipment and prosthetics; and more.
- Most Veterans qualify for cost-free health care services, although some Veterans must pay modest copays for health care or prescriptions.
- Women Veterans receive primary care, breast and cervical cancer screenings, prenatal care, maternity care coverage, and other gender-specific services.
- Eligible Veterans — and their family members — may visit VA's many community-based Vet Centers, which provide no-cost counseling, outreach, and referral services to help the whole family adjust to life after deployment. Learn more about eligibility for Vet Center Services.
- Combat Veterans who were discharged or released from active service on or after Jan. 28, 2003, are eligible to enroll in the VA healthcare system for five years from the date of their discharge or release, regardless of their disability claim status.
 - » Combat Veterans who enroll with VA under this enhanced Combat Veteran authority will continue to be enrolled after their enhanced eligibility period ends, although their enrollment priority group may change.
 - » Many Combat Veterans applying after their five-year special enrollment period ends are eligible for enrollment and are encouraged to learn more about these and other health care benefits on VA's health benefits page.

How to Apply for VA Health Care

Apply for VA Health Care Resources			
			
Apply Online The fastest and easiest way to get access to your benefits is to apply using your computer or mobile device. www.va.gov/health-care/apply/application/introduction/	Apply In Person Visit the nearest VA medical center or clinic. https://www.va.gov/find-locations/	Apply By Phone Call 1-877-222-8387 Monday through Friday, 8 a.m. to 8 p.m. EST.	Apply By Mail Print, fill out, and mail VA Form 10-10EZ to: Health Eligibility Center Enrollment Eligibility Center 2957 Clairmont Road, Suite 200 Atlanta, GA 30329-1647 https://www.va.gov/find-forms/

VA REQUIREMENTS

Military Service Requirements

- Veterans must have served in the active military, naval, or air service and separated under any conditions other than dishonorable.
- Most Veterans who enlisted after Sept. 7, 1980, or who entered active duty after Oct. 16, 1981, must have served 24 continuous months or the full period for which they were called to active duty. This includes current and former members of the Reserve or National Guard called to active duty by a federal order.

Application Requirements

- Social Security number
- Proof of discharge papers such as DD-214
- Any additional health insurance information, including coverage through a spouse or domestic partner
- Wage and financial information, including previous calendar-year gross income for the Veteran, spouse, and dependent children
- Medical deductions, funeral expenses, and educational expenses

How Do I File a VA Disability Claim?

Veterans who have disabilities, medical conditions or injuries incurred or aggravated during active military service — no matter when or where they served — may be eligible to receive tax-free monthly benefits.

Disability Claim Online Resource

Service members may also file a claim for disability benefits up to 180 days before leaving the military. Visit the Pre-Discharge Claim webpage for more information.

<https://www.va.gov/disability/how-to-file-claim/when-to-file/pre-discharge-claim/>

To support a claim for service connection, the evidence must show the following:

- You have a current physical or mental disability.
- You had an injury or disease in service or experienced an event in service that caused or aggravated an injury or disease.
- There is a link between your current disability and the event, injury or disease in military service.

If you have any of the following relevant items, you should submit them with your claim:

- Discharge or separation papers (the DD-214 or equivalent). Service treatment records and supporting statements.
- Private medical provider records and hospital reports.

VA APPLICATION PROCESS

The simplest way to obtain a VA decision on a compensation claim is to submit all supporting documents and evidence together in a Fully Developed Claim (FDC) online at VA.gov or by mail. Typical steps to apply online include:

- Find an accredited attorney, claims agent or Veterans Service Officer (VSO) to assist you with your claim.
- Establish a profile and apply on VA.gov.
- Collect and upload your military, medical and other records.
- Gather private medical records.
- Gather the required evidence for each claimed disability.
- Scan and upload all documents and then click “Submit.”
- Track the status of your claim on VA.gov.

Submitting a Claim Online

Submit a Fully Developed Claim Online. If you want to file a Fully Developed Claim but aren't quite ready, you can sign in and start a Fully Developed Claim, save your incomplete application, gather your documents and submit your claim up to one year later. Your effective date will be preserved if the claim is submitted within one year.

<https://www.va.gov/disability/how-to-file-claim/evidence-needed/fully-developed-claims/>

Enrollment Priority Groups (PGs)

WHAT ARE THEY AND HOW DOES IT WORK?

When you apply for VA health care, we'll assign you to 1 of 8 priority groups. This system helps to make sure that Veterans who need care right away can get signed up quickly. It also helps to make sure we can provide high quality care to all Veterans enrolled in the VA health care program.

Your priority group may affect:

- How soon we sign you up for health care benefits, and
- How much (if anything) you'll have to pay toward the cost of your care

We'll base your priority group on:

- Your military service history, and
- Your disability rating, and
- Your income level, and
- Whether or not you qualify for Medicaid, and
- Other benefits you may be receiving (like VA pension benefits)
- We assign Veterans with service-connected disabilities the highest priority. We assign the lowest priority to Veterans who earn a higher income and who don't have any service-connected disabilities qualifying them for disability compensation (monthly payments).

If you qualify for more than one priority group, we'll assign you to the highest one.

Priority Group 1

- Veterans with VA-rated service-connected disabilities at 50% or more disabling.
- Veterans determined by the VA to be unemployable due to service-connected conditions.
- Veterans awarded the Medal of Honor (MOH).

Priority Group 2

- Veterans with VA-rated service-connected disabilities 30% or 40% disabling.

Priority Group 3

- Veterans who are former Prisoners of War (POWs).
- Veterans awarded a Purple Heart medal.
- Veterans whose discharge was for a disability incurred or aggravated in the line of duty.
- Veterans with VA-rated service-connected disabilities 10 to 20% disabling.
- Veterans awarded special eligibility classification under Title 38 U.S.C. 1151, "benefits for individuals disabled by treatment or vocational rehabilitation."

Priority Group 4

- Veterans who receive aid and attendance or housebound benefits from VA.
- Veterans who are VA-determined to be catastrophically disabled.

Priority Group 5

- Non service-connected Veterans and non-compensable service-connected Veterans rated 0% disabled by VA with yearly income and/or net worth below the VA income limit and geographically adjusted income limit for their resident location.
- Veterans who receive VA pension benefits.
- Veterans eligible for Medicaid programs.

Priority Group 6

- Compensable 0% service-connected Veterans.
- Veterans exposed to ionizing radiation during atmospheric testing or during the occupation of Hiroshima and Nagasaki.
- Project 112/SHAD participants.
- Veterans who served in the Republic of Vietnam between Jan. 9, 1962 and May 7, 1975.
- Veterans of the Persian Gulf War who served between Aug. 2, 1990 and Nov. 11, 1998.
- Veterans who served on active duty at Camp Lejeune for not fewer than 30 days beginning Aug. 1, 1953 and Dec. 31, 1987.
- Veterans who served in a theater of combat operations after Nov. 11, 1998 as follows:
 - » Currently enrolled Veterans and new enrollees who were discharged from active duty on or after Jan. 28, 2003, are eligible for enhanced benefits for five years after discharge.
 - » Combat Veterans who were discharged between Jan. 2009 and Jan. 2011, and did not enroll in the VA health care during their five-year period of eligibility have an additional one-year to enroll and receive care.

We may also assign you to Priority Group 6 if you meet all of the requirements listed below:

- Are currently or newly enrolled in VA health care, and served in a theater of combat operations after Nov 11, 1998, or were discharged from active duty on or after Jan 28, 2003, and
- Were discharged less than 5 years ago.

Note: As a returning combat Veteran, you're eligible for these enhanced benefits for five years after discharge. At the end of this enhanced enrollment period, we'll assign you to the highest priority group you qualify for at that time.

Priority Group 7

- Veterans with gross-household income below the geographically adjusted VA income limit

Priority Group 8

- Veterans with gross-household income above the geographically adjusted VA income limit and who agrees to pay copays

Priority Group Online Information

2025 VA Health Care Copay Rates

REVIEW 2025 COPAY RATES FOR VA AND VA-APPROVED HEALTH CARE.

Effective January 1, 2025

Note: Some Veterans don’t have to pay copays (they’re “exempt”) due to their disability rating, income level, or special eligibility factors.

Learn how we determine whether you’ll pay copays <https://www.va.gov/health-care/copay-rates/>

NEW POLICY ON MENTAL HEALTH COPAY EXEMPTIONS

Eligible Veterans may not have to pay an outpatient care copay for their first 3 visits in a calendar year with a qualified mental health care provider at a VA facility or in our VA community care network. The visits must be between June 27, 2023, and December 29, 2027. We’ll review copays we received on or after June 27, 2023. And we’ll reimburse you for any eligible copays you already paid.

Learn more about mental health copay exemptions at www.va.gov/resources/mental-health-copay-exemptions/

URGENT CARE COPAY RATES

(Care for minor illnesses and injuries)

There’s no limit to how many times you can use urgent care. To be eligible for urgent care benefits, including through our network of approved community providers, both of these must be true:

- You must be enrolled in the VA health care system, and
- You must have received care from us within the past 24 months (2 years)

If you’re only getting a flu shot at your visit, you won’t have to pay any copays, no matter your priority group.

Learn more about urgent care benefits at www.va.gov/resources/getting-urgent-care-at-va-or-in-network-community-providers/

2025 Urgent Care Copay Rates		
Priority Group	Copay Amount for First 3 Visits in Each Calendar Year	Copay Amount for Each Additional Visit in The Same Year
1 to 5	\$0 (no copay)	\$30
6	If related to a condition that’s covered by a special authority: \$0 (no copay) If not related to a condition covered by a special authority: \$30 each visit	\$30
7 to 8	\$30	\$30

Note: Special authorities include conditions related to combat service and exposures (like Agent Orange, active duty at Camp Lejeune, ionizing radiation, Project Shipboard Hazard and Defense (SHAD/Project 112), Southwest Asia Conditions) as well as military sexual trauma, and presumptions applicable to certain Veterans with psychosis and other mental illness.

OUTPATIENT CARE COPAY RATES

(Primary or specialty care that doesn't require an overnight stay)

If you have a service-connected disability rating of 10% or higher

- You won't need to pay a copay for outpatient care.

If you don't have a service-connected disability rating of 10% or higher

- You may need to pay a copay for outpatient care for conditions not related to your military service, at the rates listed below.

2025 Outpatient Care Copay Rates	
Type of Outpatient Care	Copay Amount for Each Visit or Test
Primary care services (like a visit to your primary care doctor)	\$15
Specialty care services (like a visit to a hearing specialist, eye doctor, surgeon, or cardiologist)	\$50
Specialty tests (like an MRI or CT scan)	\$50

Note: You won't need to pay any copays for X-rays, lab tests, or preventive tests and services like health screenings or immunizations.

INPATIENT CARE COPAY RATES

(Care that requires you to stay one or more days in a hospital)

If you have a service-connected disability rating of 10% or higher

- You won't need to pay a copay for inpatient care.

If you're in priority group 6

- If the inpatient care isn't for a service-connected condition or special-authority care, you may need to pay an inpatient care copay based on priority group 7 or 8 income limits.

If you're in priority group 7 or 8

- You'll pay either our full copay rate or reduced copay rate. If you live in a high-cost area, you may qualify for a reduced inpatient copay rate no matter what priority group you're in. To find out if you qualify for a reduced inpatient copay rate, call us toll-free at 877-222-8387 (TTY: 711). We're here Monday through Friday, 8:00 a.m. to 8:00 p.m. ET.

2025 Reduced Inpatient Care Copay Rates For Priority Group 7	
Length of Stay	Copay Amount
First 90 days of care during a 365-day period	\$335.20 copay + \$2 charge per day
Each additional 90 days of care during a 365-day period	\$167.60 copay + \$2 charge per day

Note: You may be in priority group 7 and qualify for these rates if you don't meet eligibility requirements for priority groups 1 through 6, but you have a gross household income below our income limits for where you live and you agree to pay copays.

Review the current VA national income limits at www.va.gov/resources/va-health-care-income-limits/

2025 Full Inpatient Care Copay Rates for Priority Group 8	
Length of Stay	Copay Amount
First 90 days of care during a 365-day period	\$1,676 copay + \$10 charge per day
Each additional 90 days of care during a 365-day period	\$838 copay + \$10 charge per day

Note: You may be in priority group 8 and qualify for these rates if you don't meet eligibility requirements for priority groups 1 through 6, and you have a gross household income above our income limits for where you live, agree to pay copays, and meet other specific enrollment and service-connected eligibility criteria.

Learn more about priority groups at <https://www.va.gov/health-care/eligibility/priority-groups/>

MEDICATION COPAY RATES

If you're in priority group 1

- You won't pay a copay for any medications.

Note: You may be in priority group 1 if we've rated your service-connected disability at 50% or more disabling, if we've determined that you can't work because of your service-connected disability (called unemployable), or if you've received the Medal of Honor.

If you're in priority groups 2 through 8

- You may pay a copay for these types of medications:
 - » Medications your health care provider prescribes to treat non-service-connected conditions, and
 - » Over-the-counter medications (like aspirin, cough syrup, or vitamins) that you get from a VA pharmacy. You may want to consider buying your over-the-counter medications on your own.

Note: The costs for any medications you receive while staying in a VA or other approved hospital or health facility are covered by your inpatient care copay.

The amount you'll pay for these medications will depend on the "tier" of the medication and the amount of medication you're getting, which we determine by days of supply. Once you've been charged \$700 in medication copays within a calendar year (January 1 to December 31), you won't have to pay any more that year—even if you still get more medications. This is called a copay cap.

2025 Outpatient Medication Copay Amounts			
Outpatient Medication Tier	1-30 Day Supply	31-60 Day Supply	61-90 Day Supply
Tier 0 (prescription and over-the-counter medicines with no copay)	\$0	\$0	\$0
Tier 1 (preferred generic prescription medicines) Review our list of tier 1 medications at www.va.gov/resources/va-tier-1-copay-medication-list/	\$5	\$10	\$15
Tier 2 (non-preferred generic prescription medicines and some over-the-counter medicines)	\$8	\$16	\$24
Tier 3 (brand-name prescription medicines)	\$11	\$22	\$33

If you have a service-connected rating of 40% or less and your income falls at or below the national income limits for receiving free medications, you may want to provide your income information to us to determine if you qualify for free medications.

Review the current VA national income limits at <https://www.va.gov/resources/va-health-care-income-limits/>

Find out how we determine your health care costs <https://www.va.gov/health-care/about-vva-health-benefits/cost-of-care/>

Find a full list of medications in each tier on our pharmacy benefits website at <https://www.pbm.va.gov>

GERIATRIC AND EXTENDED CARE COPAY RATES

You won't need to pay a copay for geriatric care (also called elder care) or extended care (also called long-term care) for the first 21 days of care in a 12-month period. Starting on the 22nd day of care, we'll base your copays on these 2 factors:

- The level of care you're receiving, and
- The financial information you provide on your Application for Extended Care Services (VA Form 10-10EC).

Get VA Form 10-10EC to download at <https://www.va.gov/find-forms/about-form-10-10ec/>

Note: The 2025 community spouse resource allowance (CSRA) is \$157,920. If you have a spouse who is still living in the community and isn't also receiving extended care services, CSRA reduces the value of liquid assets that we use to determine your extended care copay amount.

2025 Geriatric and Extended Care Copay Amounts by Level of Care		
Level of Care	Types of Care Included	Copay Amount for Each Day of Care
Inpatient care	Short-term or long-term stays in a community living center (formerly called nursing homes) Overnight respite care (in-home or onsite care designed to give family caregivers a break, available up to 30 days each calendar year) Overnight geriatric evaluations (evaluations by a team of health care providers to help you and your family decide on a care plan)	Up to \$97
Outpatient care	Adult day health care (care in your home or at a facility that provides daytime social activities, companionship, recreation, care, and support) Daily respite care (in-home or onsite care designed to give family caregivers a break, available up to 30 days each calendar year) Geriatric evaluations that don't require an overnight stay (evaluations by a team of health care providers to help you and your family decide on a care plan)	Up to \$15
Domiciliary care for homeless Veterans	Short-term rehabilitation Long-term maintenance care	Up to \$5

Learn more about long-term care options at <https://www.va.gov/health-care/about-va-health-benefits/long-term-care/>

SERVICES THAT DON'T REQUIRE A COPAY

You won't need to pay a copay for any of the services listed here, no matter what your disability rating is or what priority group you're in.

- Readjustment counseling and related mental health services
- Counseling and care for issues related to military sexual trauma
- Exams to determine your risk of health problems linked to your military service
- Care that may be related to combat service for Veterans that served in a theater of combat operations after Nov. 11, 1998
- VA claim exams (also called compensation and pension, or C&P, exams)
- Care related to a VA-rated service-connected disability
- Care for cancer of head or neck caused by nose or throat radium treatments received while in the military
- Individual or group programs to help you quit smoking or lose weight
- Care that's part of a VA research project (like the Million Veteran Program)
- Laboratory (lab) tests
- Electrocardiograms (EKGs or ECGs) to check for heart disease or other heart problems
- VA health initiatives that are open to the public (like health fairs)

VA Dental Insurance Program (VADIP)

Department of Veterans Affairs provides comprehensive dental care to Veterans who meet eligibility standards (for example, former Prisoners of War and those 100% or greater service-connected); however, the benefit is not available to many Veterans. To check on your specific eligibility, please go to:

VA Dental Insurance Program Online Resources	
	
VA Dental Benefits Eligibility https://www.va.gov/healthbenefits/resources/publications/IB10-442_dental_benefits_for_Veterans.pdf	VA Dental Insurance Program VADIP Website: https://www.va.gov/health-care/about-va-health-benefits/dental-care/dental-insurance/

VA would like all Veterans and beneficiaries to have access to good oral health. Good oral health is more than just a nice smile or ability to chew favorite foods – it impacts a person’s overall health throughout his or her life.

VA’s Dental Insurance Program (VADIP) offers enrolled Veterans and beneficiaries of VA’s Civilian Health and Medical Program (CHAMPVA) the opportunity to purchase dental insurance at a reduced cost.

VA has selected Delta Dental of California and MetLife to once again offer private insurance coverage for VADIP.

Eligibility for VADIP:

Veterans enrolled in the VA health care program and CHAMPVA beneficiaries are eligible to participate in VADIP. Participation in VADIP does not affect Veterans’ eligibility for VA dental services and treatment.

Dependents of Veterans, except those eligible under CHAMPVA, are not eligible for VADIP; however, the insurance carriers may offer dependents separate coverage options.

For more information about available coverage, please contact the these insurance providers:

VA Dental Insurance Program Provider Online Information	
	
Delta Dental https://feds.deltadentalins.com/federal/vadip.html Phone: 1-855-370-3303	MetLife Dental https://www.metlife.com/vadip/ Phone: 1-888-310-1681

Once enrollments begin, qualified individuals can enroll at any time - there is no specific enrollment period.

If you want to know if you qualify for Dental Services, please contact the Eligibility and Enrollment office at 970-242-0731, Monday - through Friday from 8 am to 4 pm. One of the enrollment specialists can review your eligibility with you.

Other Health Insurance Coverages

HEALTH INSURANCE COVERAGE

Health insurance can be obtained by you or your spouse through an employer, in the private market, or a federal agency other than VA.

The benefits of having private health insurance include:

- It may reduce or eliminate your VA copayments
- It does not affect your eligibility for VA care
- It allows VA to directly bill your insurance company for care for a non service-connected condition

VA can bill your health insurance for care for a non service-connected condition, whether that care is provided directly by VA or through a community provider. You are required to provide information to VA about your health insurance coverage, including coverage provided under your spouse's policies.

While many Veterans qualify for free health care services based on a VA compensable service-connected condition or other special eligibilities, most Veterans are required to complete a financial assessment or means test at the time of enrollment to determine if they qualify for free health care services. Veterans whose income exceeds VA income limits, as well as those who choose not to complete the financial assessment at the time of enrollment, must agree to pay required VA copayments for health care services to become eligible for VA health care services. The copayment amount is based on the type of health care service you receive and your financial situation.

You also have the option to use a High Deductible Health Plan (HDHP) for medical care and services for nonservice connected conditions. HDHPs are usually linked to a Health Savings Account (HSA) which can be used to pay VA copayments. VA can bill your insurance company directly or can be reimbursed using a linked Health Reimbursement Account (HRA).

MEDICARE AND MEDICAID

While VA bills other health insurance for care for non-service-connected conditions, VA does not bill Medicare or Medicaid for such care.

When a Veteran receives emergency community care for non-service-connected illnesses, the community provider must bill the other health insurance, including Medicare or Medicaid, prior to billing VA. In these instances, you will be responsible for any cost shares, including copayments and deductibles, required by the insurance.

You may choose to sign up for Medicare for several reasons:

- VA health care benefits eligibility may change over time, so having access to both Medicare and VA health benefits could provide you with more robust health care coverage.
- Having Medicare means you are covered if you need to go to a non-VA hospital or doctor—so you have more options to choose from.
- If you delay signing up for Medicare Part B (coverage for doctors and outpatient services) and then need to sign up later because you lose your VA health care benefits or need more choice in care options, you will pay a penalty. This penalty gets bigger each year you delay signing up—and you will pay it every year for the rest of your life.
- If you sign up for Medicare Part D (coverage for prescription drugs), you will be able to use it to get medicine from non-VA doctors and fill your prescriptions at your local pharmacy instead of through the VA mail-order service. But you should know that VA prescription drug coverage is better than Medicare coverage—and there is no penalty for delaying Medicare Part D.

TRICARE

If you are eligible for VA care and TRICARE (called “dual eligibility”) and seek treatment at a VA health care facility for nonservice-connected conditions, you can choose whether to use your VA benefits or TRICARE benefits for each visit. Our staff will ask you which benefit you want to use prior to each visit, and if you choose to use TRICARE benefits, you, as the beneficiary, will be asked to complete a TRICARE Affirmation Form. In many instances, VA costs and benefits for non-service-connected conditions will be different from TRICARE costs and benefits. Covered cost shares, benefits, and services will vary depending on your TRICARE plan, and our staff can assist you with determining the best option for each visit.

Community Care: Care in the Community

COMMUNITY CARE ELIGIBILITY

Veterans may be eligible for care through a provider in their local community depending on their health care needs or circumstances, and if they meet specific eligibility criteria. Even if a Veteran is eligible for community care, they generally still have the option to receive care from a VA medical facility.

Please note the following about eligibility for community care:

- When your VA provider refers you to a provider in the community, it is important that you respond to their attempts to contact you.
- Calls can come from a blocked/unknown number or sometimes from an unfamiliar area code.
- Answering and/or calling back promptly helps to prevent delays.
- It is also helpful if you have an idea of who you would like to see. The Community Care department will confirm if your provider of choice is in-network during the initial phone call.

Care in the Community Program Online Information	
Care in the Community Program If there are any questions concerning Community Care consults, please contact the Community Care Consult Call Center at 970-263-2826, Monday-Friday, from 8 am to 4 pm, send a secure message via My HealtheVet or visit the Community Care National Program website at: https://www.va.gov/COMMUNITYCARE/	

Primary Care & Patient Aligned Care Teams (PACT)

WHAT IS PACT?

Each patient has one team assigned to his/her care. Primary care providers are responsible for the overall health care of their assigned patients. They refer patients to specialists as needed.

WHAT DO I NEED TO BRING TO MY FIRST VISIT?

- Medical Record: Bring a copy of your medical record from your current doctor, if he/she is not a VA provider.
- List of Medicines: Bring a list of each medicine you take - both prescribed and over-the-counter. The list needs to include the dose you take and how often you take each medicine.
- List of allergies
- List of immunizations
- List of health issues (most important listed first)

WHAT HAPPENS AT MY FIRST PRIMARY CARE VISIT?

The provider does a complete medical history and physical exam - this includes:

- A physical exam
- Health care screening
- Your immunization history and needs

Based on your needs:

- Prescriptions are ordered, so you can obtain them at the VA Pharmacy (more information on page 64)
- Diagnostic tests or blood work may be ordered
- Referrals for other care and evaluation

How long will the first visit take?

- Plan to spend at least 1 hour with your Primary Care Provider at your first visit.

Be prepared for your health care visit:

- See page 25 for a list to help you prepare for your first health care visit.

WHAT CAN I EXPECT AT A SCHEDULED PRIMARY CARE APPOINTMENT?

- If you are to have labs or x-rays done for a visit, plan to have testing done about a week before your scheduled appointment.
- Arrive 30 minutes before your appointment is scheduled.
- A nurse will do a pre-assessment.
- Bring your medicine list and/or bottles of medicines with you – even if prescribed by a non-VA doctor. Be sure to include over-the-counter medicine you use on a regular basis.

If you have diabetes, or high blood pressure, bring your home glucose record and blood pressure record with you.

CAN I CHANGE THE SITE WHERE I GET MY PRIMARY CARE?

Yes. Discuss this with your primary care provider. He/she will coordinate your request through the Administrative Officer for Primary Care.

CAN I CHANGE MY PRIMARY CARE PROVIDER?

Yes. You can request to change your provider. We encourage you to discuss any concerns you have with your current provider first to see if any issues can be resolved.

If you cannot reach an agreement, contact one of the front line medical support assistants at your clinic and complete a change request. They will be happy to assist you in finding another provider.

PACT TEAM MEMBERS:

- Primary Care Provider: Physician, Nurse Practitioner (NP) or Physician Assistant (PA)
- Nurse Care Manager: Registered Nurse (RN)
- Clinical Associate: Licensed Practical Nurse (LPN) or Health Technician (HT)
- Administrative clerk: Medical Support Assistant (MSA)

OTHERS IN PRIMARY CARE:

- Social workers
- Dietitians
- Clinical Pharmacy Specialist
- Peer Health Coaches
- Mental Health (PC-MHI) – Primary Care-Mental Health Integration
- VA Clinics:
 - » Phlebotomist
 - » Telehealth Technicians
- M2VA Post 911 TBI/Polytrauma

WHAT IS A PATIENT ALIGNED CARE TEAM (PACT)?

A team of health care professionals who work with you to plan all your health and wellness care. Your team focuses on:

- Partnerships between you and your health care team
- Access to care using diverse methods
- Coordinated care among team members
- Team-based care with you as the center of the PACT

PACT = PARTNERSHIP

What does this partnership mean to you? You will partner with your health care team to make decisions about your health and wellness. Rather than having a focus on an illness or an episode of care, your team will focus on your overall health. There is a much greater emphasis placed on wellness, prevention and health promotion through:

- Early detection screenings
- Preventive or wellness care services
- Educational materials
- Lifestyle coaching
- Use of technology to give you greater access to care and information

PACT = ACCESS TO CARE

PACT is designed to improve your access to care. You will have scheduled visits with your primary care provider. You may also schedule visits with other members of your health team. You also have access to group clinics and educational programs. You can contact your PACT by phone, and through My HealtheVet's online Secure Messaging feature.

PACT = COORDINATED CARE

Your PACT coordinates all aspects of your care. Each member of your team has a clearly defined role and knows how to relate to other members of the team. The key is open and frequent communication among team members and with you.

Team members will meet with you and with each other to discuss your health care goals and progress. Sometimes additional services are needed that aren't available from the PACT. If needed, your team will coordinate any transition in care that is required by staff outside primary care.

PACT = TEAM BASED CARE

The fourth component of PACT is the concept of team-based care. Patients are at the center of their PACT. If additional services are needed to meet your health care goals and needs, other clinicians are called in to help. This may include social workers, dietitians, pharmacists, mental health practitioners, or other health care specialists. The PACT and other clinicians will work with you to coordinate a wide array of health care resources. Though you may only see your primary care provider 1-2 times a year, you might have several appointments throughout the year with other clinical members of the team to manage your care.

WOMEN'S HEALTH DESIGNATED PACT PROVIDERS

A Designated Women's Health PACT Provider is a primary care provider who is trained and experienced in providing comprehensive gender specific health care to women. This is specified by a *WH-PCP and monitored by the Women Veteran Program Team. Women Veterans have the option to choose gender specific Primary Care providers. There are also all Women's PACT team too where there women assigned to the providers panel. All of these provider's are kept up to date on the latest evidence based treatment and care for women.

See Women Health Program on page 36 for services offered.

Scheduling Clinic Appointments

To schedule with any clinic where you've already established care, please call the Clinical Contact Center at 970-242-0731.

VA Online Scheduling (VAOS) App

- View upcoming appointments and video visits
- Cancel appointments
- Join video visits
- Request appointments and video visits for Primary Care, Mental Health and many others

VA Mobile App Store		
	Download the VAOS app from the VA Mobile App Store. https://mobile.va.gov/appstore	

Cancelling Clinic Appointments

It is a VA goal to provide appointments within 14-days of your request for non-urgent problems. You can help us meet this goal by calling us as soon as you know you cannot make a scheduled appointment. This gives staff a chance to schedule another patient who is waiting for an appointment.

The clinic where you are seen may give you a specific number to call to make, cancel or reschedule appointments. If not, call the Clinical Contact Center at 970-242-0731. When you call to cancel an appointment, be ready to provide all the information listed below. If you leave a voice mail message, you still need to provide all this information.

- Your Full Name (spell your last name too)
- Last 4 of Social Security Number
- Appointment Date and Time
- Tell us if you want a new appointment scheduled
- Name of the Clinic (if you contact the Clinical Contact Center)

NO SHOWS = MISSED OPPORTUNITIES

A no show happens when patients do not cancel or report for a scheduled visit. Last year, thousands of patients “no showed” for an appointment.

What a “No Show” means:

- The patient did not call to cancel the appointment
- There is missed opportunity for another Veteran who is waiting for an appointment to be scheduled into that time slot
- Poor use of staff time. This causes an increase in the costs of providing care and service to Veterans.

Please call to cancel your appointment as soon as you know you won't be able to keep your scheduled date or time.

Clinic Appointment Reminders

APPOINTMENT REMINDERS

- A notice will be sent out 2 weeks prior to a scheduled appointment.
- An additional notice is sent to call and reschedule when an appointment is missed.

MY HEALTHERVET SECURE MESSAGES

- An automated reminder email is sent approximately 5 days prior to a scheduled appointment.
- This feature is only available on Premium Level accounts.
- Do not reply to this email. Follow instructions provided to contact VA representative.

AUDIOCARE

- A phone call occurs 3 days prior to your scheduled appointment.
- Calls generally occur between 2 pm and 8:30 pm.
- For questions, call the Clinical Contact Center at 970-242-0731.

VETEXT

- A text message is sent 7 days and 2 days prior to scheduled appointment.
- Appointment can be confirmed or cancelled through text.
- Text message rates may apply.
- One message per appointment sent.
- Option to opt out of receiving texts by replying "Stop".

PLEASE keep your address and phone number up to date with your VA PACT team!!

Be Prepared for Your Health Care Visits

WE WANT YOU TO MAKE THE MOST OF EACH VISIT WITH YOUR HEALTH CARE PROVIDER.

Before you go to your visit:

- Prepare a list of questions you want to ask.
 - Find out from your PACT team if you need to fast for any lab tests the day of your appointment. If you do, ask if you should still take any prescribed medications the morning of your lab tests.
 - Think about what is most important in your life right now. Share this with your provider.
 - Think about what you might need help with and share this with your provider. This might include:
 - » Ways to make a healthy change in your life; what help can the VA offer
 - » Problems you have at home that might affect your life and health
 - » Concerns about your condition or treatment
 - » Feelings of depression or suicide
 - » Feeling anxious
 - » Trouble sleeping
 - Medications: Make a list of all the medicines you are taking that were not prescribed by a VA doctor. This includes:
 - » Prescriptions written by non-VA doctors or dentists
 - Report any side effects from your medications.
 - If you haven't been able to take any medicine as prescribed, let your provider know.
 - » Over-the-counter medications
 - » Herbals and supplements
- Try to bring a family member or close friend with you. It can be a help to have someone else with you to listen to instructions.
 - ASK ME 3: when you visit with your health care provider come prepared to ask them these 3 questions.
 - » About Your Health...
 - What is my main problem?
 - What do I need to do?
 - Why is it important for me to do this?
 - » About Your Medications...
 - Why do I need this?
 - How will it help me?
 - What are the side effects?

You don't have to feel embarrassed or rushed if you don't understand something. You can ask your provider to explain again so that you have a good understanding. Your health care team wants you to let them know when you need more help or more information!

Every time you talk with a health care provider

ASK THESE 3 QUESTIONS

1

**What is
my main
problem?**

2

**What do
I need
to do?**

3

**Why is it
important
for me to
do this?**

Lab Tests

NORMAL BUSINESS HOURS:

Hospital:

- Outpatient hours: Monday-Friday 6:30 am - 4:30 pm

VA Clinic Labs:

- Monday-Friday 8 am - 2 pm

On site Urine Pregnancy Testing is available at each VA Clinic Lab.

Contact the VA Clinic that you receive care at to schedule a lab draw.

FREQUENTLY ASKED QUESTIONS ABOUT BLOOD TESTS

Do I need to fast?

Not all blood tests require fasting. Your PACT team will advise you if fasting is required.

How long should I fast?

If you are told to fast, do not eat, drink or smoke for 8 to 10 hours before your test. You may drink water.

Should I take my medicine if I am asked to fast?

- Unless told otherwise, take your blood pressure and heart medicine with a little water the day of your test.
- If you take diabetes medicine or insulin, ask your provider for instructions.
- After the test is done, you may resume your diet and medicines unless given different instructions by your provider.

How many tubes of blood will be drawn for my tests?

Many times, several tests ordered together require multiple tubes of blood to be obtained.

How long does it take for Lab reports to be completed?

This depends on both the type of test and how fast your health provider asked for the test to be done.

Do I call the Lab for my results?

No, the provider that ordered the labs should discuss your results with you. Often, your PACT team will send a Lab letter to your home with your Lab results and an explanation of the test/results.

You may also receive results on your My HealtheVet account if you have the Premium Account. Most often, results are available about 7-days after they are drawn.

Co-Managed (Dual) Care

We urge you to receive all your health care through VA. VA will provide you with a primary care provider (PCP) who will coordinate all aspects of your care. However, we are willing to work with your “outside” private doctors to provide and coordinate your healthcare. We call this Co-Managed Care or Dual Care. Dual Care means that your VA and private doctors work together to provide safe, appropriate, and ethical medical care. There are some important things you need to know about Dual-Care.

- VA will not pay for the health care you choose to have outside VA. You are responsible to pay for care you decide to receive outside VA. This includes doctor visits, laboratory tests, special procedures, prescriptions, x-rays etc.
- You must have a VA primary care provider (PCP). Your VA PCP makes the final decision on what medicines are right for you, and what he/she will prescribe.
 - » Your VA provider must see you to review your healthcare, outside health record reviews and treatment plan of care.
 - » You must tell your VA provider the names of all the medicines you receive from any other doctor(s) you see.
 - » Some medicines are high-risk and require blood tests to ensure your safety. You must have these tests done to receive any high-risk medicine from the VA.
 - » You may need to see a VA specialist to prescribe certain medicines.
- VA providers are under no obligation to follow a treatment or medicine plan recommended by a doctor outside the VA. Your VA provider will explain his/her decision.
- If you receive controlled substances on an ongoing basis, close monitoring is required by one designated VA provider. Dual care is avoided unless your community provider and VA provider both agree it is in your best interest.
- You must tell both your private physician and your VA physician that you want to have your care coordinated.
- You will need to fill out a “Release of Information” form so that the VA has access to your medical records from the private doctor and they have access to the VA records.
- VA will only fill your private doctor’s prescriptions after your VA provider has reviewed and approved the medicines that you will receive from the VA.
- If your VA doctor decides a different medicine is right for you, and you prefer the prescription medicine your private doctor has requested, you are responsible for having that prescription filled outside of VA at your own expense.

Traveling To and From Appointments

DISABLED AMERICAN VETERANS (DAV)

Disabled American Veterans (DAV) provides ambulatory Veterans with transportation to and from VA approved appointments, including Care in the Community. This program is available due to the willingness and availability of volunteer drivers. To use this service, Veterans must be able to get from their home to the vehicle pick up location and into the vehicle and medical Center without assistance. DAV does not have the ability to transport Veterans who use a wheelchair or oxygen. Veterans are transported for scheduled appointments only. Attendants who assist in the medical care of a Veteran are welcome to ride along (must be 18 years old or older). To inquire about services offered in your area, please contact the DAV office at 970-263-2848. Services are not available in every county.

VETERANS TRANSPORTATION SERVICE (VTS)

Veterans Transportation Service (VTS) transports ambulatory Veterans as well as Veterans who are visually impaired, elderly or mobilized in wheelchairs due to disease or disability, particularly those living in remote and rural areas who face challenges traveling to their VA health care appointments. Veterans who are eligible for VA health care benefits and have VA-authorized appointments are eligible for transportation through the VTS program. Attendants who assist in the medical care of our Veterans are welcome to ride along (must be over 18 years old or older). To inquire about services offered in your area, please contact the VTS office at 970-263-5095. Services are not available in every county.

ELIGIBILITY CRITERIA FOR TRAVEL PAY

- You are service connected (SC) 30% or more
- You are traveling for treatment of a service-connected condition
- You receive a monthly VA pension
- Your income doesn't exceed the maximum annual VA pension rate
- You are traveling for a scheduled Compensation & Pension examination
 - » You only have 30 days after your appointment to request travel reimbursement

MILEAGE RATES

Mileage is paid at 41.5 cents per mile. This is subject to change. There is a required deductible of \$3.00 one-way (\$6.00 round trip) with a monthly maximum deductible of \$18.00. If your income is at or below the pension rate, you may be eligible to have this waived.

TRAVEL PAY

ADDRESS:

VA Western Colorado Health Care System
ATTN: Patient Travel
2121 North Ave.
Grand Junction, CO 81501

Hours: 8:00 am - 4:30 pm, Monday-Friday

Local phone: 970-242-0731

Toll free: 1-866-206-6415, ext. 5095 for VTS, ext. 2117 for mileage claims

Beneficiary Travel Pay

Veterans, caregivers, and beneficiaries who are eligible for reimbursement of mileage and other travel expenses to and from approved health care appointments can now enter claims in the new Beneficiary Travel Self-Service System (BTSSS). The BTSSS website simplifies the current claim submission process for beneficiaries and ensures timely processing and payment of travel reimbursements.

Mileage claims can also be filed during phone check in at VA facilities. After you check in, you will be asked if you want to file a claim for travel pay.

You must have a two-factor authenticated account to submit a claim for travel. There are currently four VA Partners that offer 2 factor identification:

- DS Log On (E-Benefits Account)
- ID.me
- My HealtheVet
- A Government issued PIV Card

With the online, automated travel claim website the Veteran will be able to:

- Submit claims online 24/7, 365 days a year
- Track the status of submitted claims
- Reduce processing time for submitted claims
- Use self-help tools to make claim submissions fast and easy.

My HealtheVet; E-Benefits and ID.me are NOT the travel claim submission site; you are only using the same user ID and password to get access to the travel website.

Beneficiary Travel Pay Online Resources	
	
AccessVA (Travel Claims) The new Beneficial Travel Pay Website is called Access VA. It can be found at: AccessVA, then select "I am a Veteran"; then submit a travel claim, and logon using a DS Log on or ID me or an MHV account. https://eauth.va.gov/accessva/	DS Logon A DS Logon is an ID issued by DoD that will allows Veterans and caregivers to access many VA and DoD sites with one user username and password. https://myaccess.dmdc.mil/identitymanagement/app/login

For Health Care Issues, Who do you Contact and When?

FOR ROUTINE (NON-EMERGENCY) QUESTIONS:

During the week, if you have a problem or symptoms that can be addressed by your provider in a day or two, please call your PACT team. However, do not delay in calling at the first signs of a problem. Early treatment is the key to dealing with many health care problems.

- Call your PACT Team.
- Call the Clinical Contact Center and ask to speak with the Triage Nurse. If the Triage nurse thinks you need to be seen, they can direct you to the Emergency Room.
 - » The Clinical Contact Center and the Triage nurse can be reached by calling 970-242-0731. They are can be reached at any time and are open 24/7, 365 days a year.
 - » Veterans Crisis Hotline: Dial 988, then Press 1 for Veterans

When you call, be ready to answer these questions:

- Full Name
- Social Security Number
- Current Address
- Phone Number (and area code)
- Which VA Medical Center or Clinic you go to for your care
- Your Primary Care Physician
- All prescribed and over-the-counter medicines you currently take. It will help if you have the medicines you take by the phone when you call.
- Reason for your call, and any medical or physical problems you have that will help the nurse answer your question

WHAT SHOULD I DO IF I HAVE A LIFE-THREATENING EMERGENCY?

CALL 911 ~ Go to the Closest EMERGENCY ROOM

Urgent/Walk-In Care

VA now offers an urgent/walk-in care benefit for minor injuries and illnesses, such as pink eye or ear infections. To be covered by this benefit, you must be enrolled in the VA health care system and have received care from VA within the 24 months prior to seeking this care. If you have a service-connected disability, you may be eligible for three free in-network urgent care visits in a calendar year. Otherwise, there will be a \$30 copay for each visit.

Veteran Priority Groups	Copayment Amount
1-5	First three visits (per calendar year): \$0 Fourth and greater visits (per calendar year): \$30
6	If related to a condition covered by a special authority: First three visits (per calendar year): \$0 Fourth and greater visits (per calendar year): \$30 If not related to a condition covered by a special authority: \$30 per visit
7-8	\$30 per visit
1-8	\$0 copay for visit consisting of only a flu shot

Urgent Care Online Information		
		
2025 VA Health Care Copay Rates https://www.va.gov/health-care/copay-rates/	Urgent Care Assistance Card Before utilizing this modality of care, please download the Urgent Care Assistance Card at: https://www.va.gov/resources/getting-urgent-care-at-va-or-in-network-community-providers/	Find an Urgent Care Eligible Veterans can use an urgent care facility or walk-in retail health clinic that is part of VA's community provider network. To find an available urgent care provider in VA's provider network of community providers, go to: https://www.va.gov/find-locations/

Emergency Care

IF YOU COME TO THE EMERGENCY DEPARTMENT...SIGN IN WITH THE CLERK FIRST.

Triage Nurse:

After you sign-in with the clerk a triage nurse will see you. The nurse will take your vital signs and do a brief assessment, and then decide which level of care you need. The triage nurse may send you to see your PACT Team.

EMERGENCY DEPARTMENT (ED)

Patients assigned to the ED are critically ill and have the highest level of acuity. They have life-threatening emergencies. Close monitoring and extensive work-ups are needed. If you are assigned to the ED, you are encouraged not to leave until a provider has completed your evaluation and written discharge orders.

PSYCHIATRIC EMERGENCY

We also provide care for acute mental health issues or care for detox from alcohol or drugs.

NARCOTICS:

The Emergency Department will not refill narcotic prescriptions.

- If you need a narcotic prescription refill see your primary care doctor.
- If you have acute pain from a new problem, the ED doctor may write no more than a 3-day prescription to treat “new” and acute pain.

PLEASE NOTE

*If you call 911 the EMS will take you to the closest emergency room. You may be responsible for the cost of ambulance and emergency care at a Non-VA or Community Hospital. Within the first 24 hours of initiating care, tell the outside hospital that you are a patient at the VA and want your care coordinated with VA. The outside hospital will need to give VA this information within 72 hours to have the care coordinated. See The 72 Hour Community Hospital Notification Rule information on page 34.

Other details:

- If VA beds are full and a transfer cannot be arranged, it does not guarantee that VA will cover the care at an outside hospital.
- If you’ve been seen at an outside hospital, it’s important to let your PACT team know so they can help coordinate your care afterwards.

EMERGENCY PROBLEMS:

If you have a life-threatening emergency or serious injury, call 911 or go to the nearest Emergency Room right away.

KNOW THE HEART ATTACK WARNING SIGNS

- Uncomfortable pressure, fullness, squeezing or pain anywhere in the chest lasting more than a few minutes
- Pain spreading to the shoulder, neck, in one or both arms, stomach or back
- Chest discomfort with lightheadedness, fainting, sweating, nausea, vomiting or shortness of breath
- Chest discomfort with a feeling of doom or imminent death

What do I do if I have signs of a heart attack?

- CALL 911
- Take 1 regular aspirin (do not take if you have an aspirin allergy)
- Have the Life Squad take you to the nearest Emergency Room
- DON'T WAIT!!!

KNOW THE STROKE WARNING SIGNS

- Numbness, weakness or paralysis in the face, arm or leg, especially on one side of the body
- Sudden blurry or decreased vision
- Trouble speaking or understanding what others are saying
- Loss of balance or coordination

SPECIAL NOTE: Not everyone has all of these signs, and some symptoms may come and go.

What do you do if you have any signs of a stroke?

- CALL 911
- Have the Life Squad take you to the nearest Emergency Room
- DON'T WAIT!!

A stroke is an EMERGENCY! Doctors have medicine that may save your life if you get to the hospital in time.

72 Hour Community Hospital Notification Rule

ONE PHONE NUMBER TO CALL, NO MATTER WHERE YOU ARE!
1-844-724-7842 OR (1-844-72HRVHA)

During a medical emergency, Veterans should immediately seek care at the nearest medical facility. A medical emergency is an injury, illness or symptom so severe that without immediate treatment, you believe your life or health is in danger. Veterans do not need to check with VA before calling for an ambulance or going to an emergency department.

After you access emergent community health care, VA needs to be notified right away (or maximum within 72 hours).

When you do this, we can continue to coordinate and address any care issues or needs for you. Plus, this how your VA Western Colorado Health Care System PACT Team knows about care that you receive emergently at another facility. We can then address your stay, your follow up, and your upcoming needs.

In addition, the 72-hour hospital notification is the first step in requesting that VA pays for your community hospital stay. This applies to both an emergency room visit and inpatient community hospital admissions. If the 72 Hour Community Hospital notification is not placed, those bills may be sent directly to you.

The community hospital, emergency room, you or your family can make this notification to the new VHA Centralized Emergency Notification Center at 1-844-724-7842.

The QR code below will connect you with more information.

When you call, this is the information that VA Western Colorado Health Care System needs:

- Name of the community hospital
- City of the community hospital
- Time and date of check in to the community hospital
- Why you were there
- Emergency room only or if the Veteran was admitted to the community hospital
- Discharge time and date and where the Veteran went. For example: home or rehab.

To find out more about Urgent Care/Walk-In Care, look on page 31 in the Primary Care & PACT section.

Community Care: Emergency Medical Care For additional information, please visit: https://www.va.gov/COMMUNITYCARE/programs/Veterans/Emergency_Care.asp	

Home Based Primary Care

HBPC uses a team plan to manage the Veteran's whole health, or physical, mental and emotional health care needs. HBPC helps the Veteran and family in finding and selecting services that will help the Veteran remain safely in his/her home environment.

HOME BASED PRIMARY CARE (HBPC) PROVIDES INTERDISCIPLINARY PRIMARY CARE TO HIGH-RISK VETERANS IN WESTERN COLORADO WHO:

- Have complex, chronic disease not effectively managed by routine clinic-based care;
- Have had recurrent hospitalizations and/or emergency room visits in the last 6 months;
- Are homebound or experience significant difficulty leaving home for clinic-based appointments; and
- Live within a 70-mile radius of the VA Western Colorado Health Care System center in Grand Junction.

How do I get enrolled in HBPC?

Anyone can be referred by his or her VA primary care provider to the HBPC program. You will be evaluated by a HBPC nurse and/or by other team members in your home.

What can HBPC do for you?

- Provide primary health care in your home.
- Provide regular visits to see how you and your family are doing meeting your health care needs
- Provide education and counseling about medical conditions, emotional well-being, diet and home safety.
- Coordination of your care with community and VA services based on your needs

What can't HBPC do for you?

- Urgent or emergent services
- Daily or weekly nursing care or therapy.
- Homemaker services
- Help with personal care needs such as bathing and dressing
- Visits by team members after business hours, on weekends or holidays
- HBPC is not home health, but Veterans can receive home health skilled & non-skilled services while enrolled with HBPC
- Certain labs and diagnostic tests cannot be done in the home setting

WILL I HAVE TO PAY FOR HBPC SERVICES?

Payment depends on your individual VA eligibility. Some Veterans will have a co-payment for visits and medications. If co-payments are needed, HBPC staff will review payments with you during the first home visit. See information on pages 12-16 of this booklet for more information.

HOW OFTEN WILL I HAVE VISITS?

Visits will be based on your needs. You, your caregiver and the HBPC team will decide how often visits will be made. If enrolled, your RN Case Manager is the HBPC staff person you will see most often. S/he will visit you about every 6-8 weeks. The first two nursing visits may take 1-2 hours.

WHAT CAN I EXPECT AT A SCHEDULED HBPC APPOINTMENT?

Your nurse, rehabilitation therapist, social worker, mental health professional, dietician, primary care provider, and pharmacist will complete assessments, treatments and education.

Women's Health Program

WE ARE COMMITTED TO PROVIDING HIGH QUALITY WOMEN'S HEALTHCARE SERVICES TO OUR FEMALE VETERANS.

The Women Veterans Health Program is your primary source to receive healthcare services and to address your preventive female-specific needs. We have designated women health providers in every Primary Care clinic and two gynecologists on staff.

All new enrollee women Veterans are assigned to a women's health provider. These providers are trained in delivering comprehensive healthcare services to women. If you are unsure about whether your team is led by a designated women's health provider, please ask at your next appointment. You can also contact the Women Veterans Program Manager for more information.

Below are some of the services offered Women's Health Services and through your assigned women's health provider:

- Contraception
- STI Testing
- Breast Cancer Screening
- Pelvic Cancer Screening
- Osteoporosis Screening
- Mental Health Care (MST/PTSD)
- Menopause Management
- Hormone Replacement Therapy
- Maternity Care
- Prenatal Care
- Pelvic Floor Therapy
- Pregnancy Option Counseling [including abortion counseling and abortion services benefit (if the life or the health of the Veteran is endangered)]
- Reproductive Health Care
- Infertility Evaluation

If you need specialty women's healthcare services, your primary provider will refer you to our gynecologist for appropriate care. Gynecology Services are offered face to face at VA, or via Community Care in other areas.

WOMEN VETERANS PROGRAM MANAGER

Each VA facility has a Women Veterans Program Manager (WVPM). This person can help women understand their benefits and coordinate their care. The WVPM assists women Veterans in establishing eligibility, understand their benefits and obtaining their health care in the VA system. WVPM is a healthcare professional responsible for continuous improvement and support for women Veterans' healthcare. She is available to assist you if you have any questions or concerns about your healthcare needs. You can contact your local WVPM by calling your main facility and asking to speak with the "Women Veterans Program Manager". You can also visit our network women's health website, which lists specific contact information by facility at:

Women Veterans Program Online Information	
VA Western Colorado Health Care System Women Veterans Health https://www.va.gov/western-colorado-health-care/health-services/women-Veteran-care/ or contact the VA Western Colorado Health Care System Women Veterans Program Manager at 970-242-0731 Ext: 2192.	

WOMEN VETERANS NATIONAL HOTLINE AND CALL CENTER

- Call or text the Women Veterans Call Center at 1-855-VA-WOMEN (1-855-829-6636) or use the online chat feature. Women Veterans Call Center representatives are available Monday through Friday, 8:00 a.m. to 10:00 p.m. ET, and Saturday, 8:00 a.m. to 6:30 p.m. ET, excluding federal holidays. If you contact the Women Veterans Call Center after hours and leave a message, you will receive a return call the next day the call center is open. The Women Veterans Call Center is your resource for information about a variety of services and benefits that you have earned and deserve through your military service. The Women Veterans Call Center can be your first call to find out how VA can help you. No question is too big or too small, and every question is important.

Examples of questions the Women Veterans Call Center can help with are:

- How to reconnect with VA health care if you applied a long time ago but never used your benefits
- How to connect with your local women's health contacts including your local Maternity Care Coordinator or Women Veterans Program Manager, who will assist in coordinating all the services you need
- How to find out what you are eligible for (including general questions about disability ratings) and other VA benefits like employment, education, and home loans
- How to refill your prescription or make an appointment

Mental Health Care

The VA offers a range of treatment services to improve the mental health of Veterans.

PRIMARY CARE MENTAL HEALTH INTEGRATION (PCMHI):

Mental health providers located in the Primary Care Clinic offer short-term treatment for common issues, such as stress, grief, mild depression, anxiety, and poor sleep. Medication management and referral to more intensive mental health programs are also provided.

Your PACT can assess your needs and get you started with services. This is available at all sites.

MENTAL HEALTH HOME TELEHEALTH:

A free daily monitoring program from home; a supportive tool for: Anxiety, Bipolar Disorder, Depression, Nicotine Cessation, Schizophrenia, TBI, PTSD and Substance Abuse.

Ask your PACT for a Home Telehealth consult or call the Clinical Contact Center at 970-242-0731.

VETERAN RECOVERY CENTER

The Veteran Recovery Center (VRC) offers specialty mental health care for Veterans seeking outpatient tobacco cessation or substance use treatment. They provide specialized, evidence-based treatments including individual therapy, group or couple therapy, and medication-assisted treatments. Services are available at the main facility, on a walk-in bases.

For more information call 970-263-2824.

THE CENTER FOR POST-TRAUMATIC GROWTH—PTSD SPECIALTY CARE AT WCHCS

At WCHCS, the mission of the Center for Post-Traumatic Growth is to offer treatments that maximize recovery in the shortest amount of time so Veterans can pursue a life based on their values. We partner with Veterans and—per preference—their families and friends, our healthcare system, and the community at large to promote growth and empowerment. We achieve this through increasing knowledge and awareness, reducing stigma, and increasing a sense of belongingness and appreciation for all involved in this journey of healing.

The Center for Post-Traumatic Growth

Please visit www.ptsd.va.gov to learn about Prolonged Exposure, Cognitive Processing Therapy, Written Exposure Therapy, and other evidence-based treatments for trauma that can lessen symptoms and increase your ability to live a meaningful life in just 3 - 4 months! These treatments can be provided in-person or virtually.

Call 970-263-2824 to learn more!

MILITARY SEXUAL TRAUMA

Military sexual trauma, or MST, is the term used by VA to refer to experiences of sexual assault or repeated, threatening sexual harassment that a Veteran experienced during his or her military service.

MST can occur on or off base and while a Veteran is on or off duty. Veterans do not need to have reported the incident(s) when they happened or have other documentation that they occurred. Both men and women can experience MST. MST affects both mental and physical health.

- Every VA health care system has a designated MST Coordinator who serves as a contact person for MST-related issues. Through individual consultation, this person can help Veterans find and access VA services and programs, as well as explore other community supports and programs.
- VA provides free, confidential treatment for all mental and physical health conditions related to MST. To receive free treatment for mental and physical health conditions related to MST, Veterans do not need to be service connected (or have a VA disability rating). Veterans may be able to receive this benefit even if they are not eligible for other VA care.
- MST-related services are available at every VA health care system. There are also specialized mental health services, including: outpatient (psychological assessment and evaluation; psychiatry; and individual and group psychotherapy), inpatient, and residential care available for MST survivors.

For more information, please call the MST Coordinator at 970-263-2816.

MESA CENTER FOR RECOVERY

Residential treatment program located in Grand Junction, for Veterans with addiction to drugs and/or alcohol.

For more information call 970-263-2824.

HOMELESS VETERAN PROGRAM:

Services are offered for homeless Veterans. Assistance provided for eligible Veterans for emergency, transitional and permanent housing, case management, referrals to mental health, primary care, addiction treatment, and employment assistance.

The Homeless Veteran Clinic is located in the main facility, in Colorado Corridor, Room 1406. Walk in hours are Monday-Friday, from 9:30 am to 12:30 pm. The clinic can be reached at: 970-244-1318.

VETERANS JUSTICE OUTREACH (VJO):

Services for justice-involved Veterans to assist with eligibility and referral to VA mental health and addiction treatment and if eligible to Veteran Treatment Courts located in Western Colorado;

The VJO Coordinator can be reached at 970-234-5107

EMERGENCY SERVICES:

When Veterans present to the WCHCS Emergency Department (ED) in a mental health crisis, the Crisis Response Team (CRT) works with ED staff to assess the Veteran and identify and facilitate the most appropriate level of psychiatric care.

INTENSIVE COMMUNITY MENTAL HEALTH SERVICES:

Veterans with a long-term serious mental health diagnosis may qualify for community-based intensive case management services to help improve independence, quality of life and social supports. (ICMHR RANGE Program).

Veterans who are interested in more information about RANGE or ICMH services should contact their primary care provider.

VETERANS CRISIS LINE:

Veterans have same-day access to emergency mental health care

Connect with the Veterans Crisis Line to reach caring, qualified responders with the Department of Veterans Affairs. Many of them are Veterans themselves.

- They provide support, problem-solving, and connection to local resources.
- Available every day, 24/7, and serves all Veterans, Service members, their family and friends.

Dial 988, then press 1 for Veterans. Veterans may also send a text message to 838255 or chat online at VeteransCrisisLine.net

VA Western Colorado Health Care System's Suicide Prevention Program offers:

- Support and follow-up for Veterans who are receiving care through the WCHCS
- Training and resources in the community to raise awareness and ability to respond effectively to prevent suicide.

**Veterans Crisis Line
Online Information**

Veterans Crisis Line

You never know when
a crisis could happen.

Specialty Services

There are many specialty services at the Grand Junction Health Care System. Your PACT Provider will work with you to access all of your healthcare needs. Your provider may refer you to specialists or request a non-VA or Community Care provider when services are not available or limited.

Some specialties available at VA Grand Junction Health Care System are listed below, (this list is subject to change at any time):				
Audiology	Diabetes Education	Mental Health	Pathology	Sleep
Cardiac Rehabilitation	Gastrointestinal (GI)	Neurology	Physical Therapy	Speech and Language Pathology
Cardiology (limited)	General Surgery	Nutrition	Podiatry	Traumatic Brain Injury
Chiropractic	Gynecology	Occupational Therapy	Prosthetics	Urology
Clinical Pharmacy	Infectious Disease	Optometry	Pulmonology	Wound Care
Dental	Laboratory	Orthopedics	Radiology	
Dermatology		Pain Management	Recreation Therapy	

Direct Scheduling Services

AUDIOLOGY

- Veterans can now Self-Refer to Audiology for scheduling needs without having to see their Primary Care Provider (PCP) first.

Call 970-242-0731 for scheduling.

An Audiology service clerk will ask you several screening questions.

MOVE! PROGRAM

- Veterans can now self-refer to the MOVE! weight management program (this is no-cost to the Veteran)

Call 970-263-2847 to schedule an appointment.

NUTRITION

- Veterans can now Self-Refer to Nutrition, for routine nutritional counseling,without having to see their Primary Care Provider (PCP) first.
- This covers ONLY routine Nutrition counseling (healthy eating and sports nutrition)and does not cover MOVE, diabetic needs, eating disorders, feeding tubes, etc. Those services will still require a consult prior to scheduling.

Call 970-263-2847 to schedule an appointment.

A Nutrition service clerk will ask you screening questions.

The PACT Act and Your VA Benefits

The PACT Act is a law that expands VA health care and benefits for Veterans exposed to burn pits, Agent Orange, and other toxic substances. This law helps us provide generations of Veterans—and their survivors—with the care and benefits they’ve earned and deserve. And starting March 5, 2024, we’re expanding VA health care to millions of Veterans—years earlier than called for by the PACT Act. See the below website for additional information about the PACT Act

PACT Act Online Information	
Important Information About the PACT Act can be found here: https://www.va.gov/resources/the-pact-act-and-your-va-benefits/	

Traveling Veteran Information and Traveling Veteran Coordinator (TVC)

ARE YOU PLANNING ON TRAVELING SEASONALLY? ARE YOU PLANNING AN EXTENDED TRIP AWAY FROM VA WESTERN COLORADO HEALTH CARE SYSTEM OR AFFILIATED CBOC'S?

If so, you may need some coordination of your medical care with another Department of Veterans Affairs (VA) facility:

- To ensure your care, including medication refills, continues uninterrupted during periods of extended travel, please inform your Primary Care or Patient Aligned Care Team (PACT) of such plans in advance of your departure date. Be sure to tell us your temporary address and telephone number so that your medication refills will reach you and we can assist with your care.

TRAVELING VETERAN RESPONSIBILITIES:

Prior to traveling:

- Inform PACT of travel dates, temporary address, phone number
- Discuss any specific health concerns with PACT

For non-urgent care while traveling:

- Contact PACT for routine, non-urgent needs while traveling, PACT will contact WCHCSS Traveling Veteran Coordinator (TVC). TVC will try to coordinate care with the alternate VA Facility

For urgent/emergent care while traveling:

- Go to the nearest appropriate Emergency Department or Urgent Care (care cost might not be covered by VA)

If receiving care at a non-VA facility, call 1-844-724-7842 within 72 hours of that care.

The Traveling Veteran Coordinator:

- You can use secure messaging in My HealtheVet

For more information, please call 970-263-2800 and ask to speak to the Traveling Veteran Coordinator.

My HealtheVet Online Information	
My HealtheVet www.myhealth.va.gov	

Social Work

There is a social worker for all PACT sites. The role of the social worker is to assess and help you manage psychosocial and environmental factors that impact your health and wellness including mental health, ability to cope with changes in your health, family or support system concerns, or issues with finances or housing. Social workers are here to help you access resources and better manage life's challenges.

ACCESS TO CARE: WHERE CAN YOU FIND HEALTH CARE AND HOW TO PAY FOR IT?

- Prepare advance directives – durable power of attorney for health care and living will.
- Answer questions about the VA means test, co-pays and bills from the VA.
- Answer questions about Medicare, Medicaid and referrals for dental care.
- Transportation options.
- Information about Handicapped parking placards

FINANCIAL SUPPORT: DO YOU HAVE ENOUGH MONEY FOR YOUR NEEDS?

- Information about temporary financial assistance and financial counseling
- Referrals to employment services.
- Referrals for vocational rehabilitation programs.
- Information about disability applications (VA and Social Security).

HOUSING: DO YOU NEED HELP TO REPAIR YOUR HOME OR TO FIND OTHER SUITABLE HOUSING?

- Home weatherization and improvement programs. Information on affordable housing. Assistance with making your housing more handicapped accessible. Information on group homes, assisted living, nursing homes, Veterans Homes and homeless shelters.
- SOCIAL SUPPORT: Do you want to improve the quality of your relationships?
- Assess your social support and provide treatment or referrals to treatment.
- Help for the caregivers of Veterans.

FUNCTIONAL SUPPORT: DO YOU NEED HELP WITH BATHING, DRESSING, EATING, CLEANING, LAUNDRY, SHOPPING OR MANAGING MONEY?

- Assess your ability for self-care.
- Assess for needed referrals from your provider for homemaking services, home health aide services, adult day health care, Meals on Wheels, respite care, payees, fiduciaries, or guardians.

If you need help with any of these concerns, contact your PACT to schedule a visit to see a social worker. Primary Care Social Workers are part of your PACT team. Call the Clinical Contact Center at 970-242-0731 to make an appointment.

Intimate Partner Violence (IPV)

IPV refers specifically to violence and aggression between intimate partners. IPV can include physical, sexual or psychological abuse or stalking. It can happen to women or men who have intimate relationships with women, men or both. Our mission is to provide a comprehensive recovery-oriented assistance program for Veterans, their families and caregivers who experience intimate partner violence.

SERVICES INCLUDE:

- Link to community-based support groups, advocacy and legal services
- Referral to and coordination with other VA treatment providers
- Connection to domestic violence shelters and other supported housing
- Interventions for Veterans who use violence

For more information about IPV services, please call 970-852-2250.

Advance Directives

Advance Directives are decisions that you should make before you are sick or as soon as you become sick. You may not always be able to make decisions on your own. Advance Directives tell those who are caring for you what you want.

THERE ARE TWO TYPES OF ADVANCE DIRECTIVES:

Living Will

- This is a legal document.
- It does not deal with anything you own or want to pass to your heirs.
- It tells your wishes – what you do or do not want if you are not able to make your wishes known.

Durable Power of Attorney for Health Care

- This is a legal document.
- You may choose a person you trust to make health care choices for you, if you are not able to speak or make your own decisions. Be sure to tell that person what you want. You should also talk to your doctor.

Without a health care power of attorney, your legal next of kin is the person who will make medical decisions for you.

You have the right to:

- Be told about your health and health problems and the plans for your treatment
- Appoint someone to make healthcare decisions for you if, in the future, you are not able to make those decisions for yourself
- Accept or refuse any medical treatment
- Indicate what medical treatment(s) you do or do not want, if in the future, you are not able to make your wishes known

Who can help you decide about a Living Will?

- Talk with your family, doctor, social worker or chaplain. Our social workers and chaplains can provide the forms to you.

Post-9/11 Military 2VA (M2VA) Case Management Program and TBI/ Polytrauma Program

FORMERLY OPERATIONS ENDURING FREEDOM/IRAQI FREEDOM/NEW DAWN
(OEF/OIF/OND) CLINIC

Who Is Eligible For M2VA?

- Current Combat Veterans (post 9/11)
- Active Duty Service Members
- Transitioning Post 9/11 Service Members
- Referrals from Military Treatment Facilities
- Referrals from War Related Illness and Injury Study Center (WRIISC)

Eligibility Criteria

VA provides combat Veterans with free healthcare for conditions potentially related to their combat service for up to five years following their separation from active duty. At the end of the five-year period, you will retain enrollment eligibility. Based on individual circumstances you may be required to make a copayment.

The primary factor in determining basic eligibility for VA benefits is “Veteran Status.”

- Active Duty in the Armed Forces with a discharge or release from active service under conditions “other than dishonorable” establishes Veteran status (with or without Combat service).
- Reserve/Guard Component members can establish eligibility for VA healthcare benefits if they were activated on federal Title 10 orders by the President and in support of OEF/OIF/OND.
- Reserve/Guard Component members who are never called to active duty may qualify for some benefits through Veterans Benefit Administration (VBA).

FREE dental care within 180 days of discharge from active duty is available for Veterans who have 90 consecutive days on active duty and did not receive dental care at time of discharge.

TBI/Polytrauma

VA Polytrauma/TBI program is a Polytrauma Support Clinic Team (PSCT). The PSCTs provide outpatient interdisciplinary rehabilitation services that include comprehensive evaluations and development of individualized rehabilitation plans of care.

M2VA Case Management Program Resources	
For more information, dial 970-242-0731 and ask to be directed to the Post-911 M2VA Case Manager or the TBI Coordinator	
Enrollment In order to receive healthcare services a Veteran must enroll in VA healthcare. You can enroll online at: https://www.va.gov/health-care/apply/application/introduction or download the application VA Form 10-10EZ and mail or hand carry to the nearest VA Medical Center.	
Registries We encourage all Veterans who served in the Persian Gulf and Afghanistan and who may have been exposed to certain environmental hazards during their military service to complete a free, voluntary online medical assessment. https://www.va.gov/post911Veterans/	

Environmental Health Registry

VA's health registry evaluation is a free, voluntary medical assessment for Veterans who may have been exposed to certain environmental hazards during military service.

The evaluations alert Veterans to possible long-term health problems that may be related to exposure to specific environmental hazards during their military service. VA has established several health registries to track and monitor the health of specific groups of Veterans. The registry data helps VA understand and respond to these health problems more effectively.

You may be eligible to participate in one or more of these health registries:

- Veteran and family health and disability benefits for Camp Lejeune.
- Qualifying health conditions
- Blue Water/Brown water Navy and Agent Orange Presumptions.

For more information about an Environmental Health Registry Evaluation, contact the local Environmental Health Coordinator at 970-242-0731, ext.. 3818.

Use this chart to help determine your eligibility

Period of Military Service	Agent Orange	Airborne Hazards and Open Burn Pit	Depleted Uranium Follow-Up	Gulf War	Ionizing Radiation	Toxic Embedded Fragments
1940s-1950s					●	
1960s	●				●	
1970s	●					
1990s		●	●	●		
2000s-Present		●	●	●		●

Contact your local VA Environmental Health Coordinator (see link below) about getting a registry evaluation. You do not need to enroll in VA's health care system to take part. The registry evaluation is separate from VA's disability compensation process and does not confirm exposure to environmental hazards during military service.

Veterans who want to be considered for disability compensation for exposure-related health problems must file a claim for disability compensation.

During the claims process, VA will check military records to verify exposure to the claimed environmental hazard or qualifying military service. If necessary, VA will set up a specific compensation examination.

*Operations Enduring Freedom, Iraqi Freedom and New Dawn

Telehealth Services

THE RIGHT CARE IN THE RIGHT PLACE AT THE RIGHT TIME

Clinical Video Telehealth (CVT)

Clinical Video Telehealth (CVT) uses real-time video conferencing to provide remote care to patients. Sometimes other technology is used along with CVT. CVT can be used for both primary and specialty care. It can be used to:

- Link a health care provider with a patient at home
- Link a health care provider(s) at one site to patients at a VA Clinic

Some specialties offered via CVT include, (this list is subject to change at any time):				
Dermatology Nephrology Rheumatology Urology	Oncology Sleep Disorders Neurology	Women's Health Services Audiology Speech	Physical Therapy/ Assisted Mobility Mental Health (all specialties)	Cardiac Rehab Neuropsychology And many more....

Store and Forward Telehealth (SFT)

Store and Forward Telehealth is used to capture and store clinical information (e.g., data, images, sound, and video) that is then securely forwarded to or retrieved by a provider at a different time for clinical evaluation. Providers can utilize this technology for screening, diagnosis, and treatment.

Current SFT programs include:

- Tele Eye Screening- Pictures of the eye and retina are taken in the clinic and sent to Optometrists to review. This program screens for diabetic retinopathy, macular degeneration, and glaucoma. Can often be scheduled and completed the same day a Veteran comes to a clinic for another appointment.
- Tele Dermatology - Pictures are taken of skin disorders or rashes and sent to experts to review. The Dermatologist then sends their recommendation for treatment.
- Tele Sleep – The Tele Sleep program has home sleep apnea testing which is a method of diagnosing sleep-disordered breathing (sleep apnea).
- Tele Audiology – Images and hearing tests are completed and sent to an Audiologist to review. The Audiologists then provide their recommendations to the Veterans.
- Tele EEG (Neurology) – VA staff obtain an EEG and send the results to a VA epilepsy specialist to review and interpret. The Epilepsy specialist then provides their recommendations for treatment.

Home Telehealth (HT)

Home Telehealth (HT) programs provide individual RN case management along with technology to improve patient care and outcomes. It can help the patient at home monitor: blood pressure, blood glucose, pulse oximetry, and weight. It benefits patients with high risk chronic disease in these ways:

- Fewer complications
- Reduced ER visits
- Fewer hospitalizations

For more information contact your Primary Care provider.

VA Video Connect

REACH YOUR VA CARE TEAM OVER LIVE VIDEO

Real-time access to VA care in a way that works best for you!

VA Video Connect is a new VA solution that enables Veterans to virtually meet-up with their VA healthcare providers, in something called a virtual medical room, using encrypted video to ensure the session is secure and private. It allows Veterans to see and talk to their health care team from anywhere, making VA healthcare more convenient and reducing travel times for Veterans, especially for those in very rural areas with limited access to VA health care facilities.

When a VA Video Connect (VVC) visit is scheduled, VVC sends an email to both the provider and Veteran. The email includes a web link. When the web link is clicked, it takes the Veteran or provider into a virtual medical room. Once both the Veteran and Provider are in a virtual medical room, they can see each other, hear each other, and start their clinical session. VVC uses an internet connection, VA Video Connect app if using iOS device, and the camera/microphone on a phone, computer, or tablet.

Talk with your provider about using VA Video Connect if:

- You live far away from your VA facility.
- You're dealing with health conditions that make it difficult to travel to the specialist you need.
- You lack time to attend an in-person appointment.
- A hands-on physical examination is not required.

Whole Health Care

The VA Western Colorado Health Care System is shifting from a health care system focused primarily on treating disease to one based on healing relationships that support you in achieving your greatest overall well-being.

During military service, you committed your life, health, and well-being to mission success to defend our country. Now, the Department of Veterans Affairs' is committed to helping Veterans to be mission-ready for life. In other words, it's care that is centered on "what matters to you," not just "what's the matter."

So, what matters most to you in your life? When you think about these priorities, ask yourself if you are doing everything you can to achieve these goals. The human body and mind have tremendous healing abilities that we can work together to strengthen. Your health team wants to support you in this journey.

Rather than focusing on challenges in your life, think about what encourages you to work through those challenges. What drives you to stick with your rehabilitation, to watch your diet, or to seek help for issues you are facing? Then envision yourself at your healthiest. What do you see? Whole health care starts here, with these questions.

This means your health team will get to know you as a person, before working with you to develop a personalized health plan based on your values, needs, and goals.

The whole health approach supports Veterans with traditional healthcare providers and trained Veteran peers, wellness instructors, coaches, and community partners.

WHAT'S YOUR MISSION, ASPIRATION, AND PURPOSE IN LIFE?

HOW DOES THAT GUIDE YOUR EFFORTS TO BE HEALTHY?

WHAT HAVE YOU DONE FOR YOUR HEALTH LATELY?

Often, we wait until we have health problems before we act. Here is another way to think about our health. Three unhealthy habits lead to four chronic diseases which leads to 50% of all deaths. Isn't it time to think "What have I done for my health lately?"

3-4-50 Model for Health Improvement	
3 HEALTH BEHAVIORS	Tobacco Use Unhealthy Food Choices Physical Inactivity
Leads to	
4 MAJOR CHRONIC DISEASES	Heart Attack, Stroke, High BP Type 2 Diabetes Chronic Lung Disease Many Cancers
Which Play a Role in	
50% OF DEATHS WORLDWIDE	50 Percent of all Deaths

Whole Health System

The VA Whole Health System supports the partnership between Veterans and their health care teams. This Whole Health System is made up of three components; helping to empower, equip, and treat Veterans to help them live their lives to the fullest.

THE PATHWAY OFFERS A PLACE TO START ON THE WELLNESS JOURNEY. VETERANS MAY ENTER THE PATHWAY THROUGH:

- Introduction to Whole Health Class - This class will help you explore your life mission, aspiration and purpose by reflecting on what really matters to you and what you want your health for. You will learn the practice of mindfulness and set goals in a supportive environment. Additional classes and continued support are available after the first class. Ask your PACT team for details or call Whole Health at 970-263-6294 to learn more.

VA Whole Health System Online Resources	
	
My HealtheVet Complete the HealtheLiving assessment on the My HealtheVet website and share it with your healthcare team. https://www.myhealthevet.va.gov	VA Whole Health https://www.va.gov/wholehealth/

WELLNESS PROGRAMS (COMPLIMENTARY AND INTEGRATIVE HEALTH)

Wellness Programs support each area on the Circle of Health and include complimentary and integrative programs including yoga, meditation, whole health coaching, tai chi, massage, bio-feedback, chiropractic care, reiki, CBT-insomnia (Cognitive Behavior Therapy), Chaplain services, stress management, nutrition, MOVE (free weight loss program) and more.

Personalized Health Plan

VA recognizes that healthcare is more than addressing health problems. Just like a mission in the military, we believe that the BEST care is proactive: well prepared and executed. We encourage you make it your mission to become resilient to disease and illness.

WHAT’S YOUR MISSION FOR LIFE?

Only you know what really matters to you. Only you know WHY it’s important for you to be healthy.

When healthcare is centered on your mission and what’s important to you, it has purpose and meaning. It involves more than simply keeping medical appointments and taking medication. To develop and maintain resilience, it’s important to adapt to adversity and overcome barriers. Assessing your strengths and areas for growth is the first step. It involves looking at all aspects of life that contribute to a sense of well-being. A personalized health plan is a tool to help you explore these aspects, prioritize your needs, mobilize resources, and execute a plan.

Step 1: Personal Health and Wellness Assessment

There are several ways to get started:

- Work with a Whole Health staff member to fill out a Personal Health Inventory
- To do the Personal Health Inventory online, go to <https://www.va.gov/wholehealth/>
- Go to My HealtheVet, <https://www.myhealthevet.va.gov>, to complete a Healthy Living Assessment and send it to your team by Secure Message.

Step 2: Develop Your Plan

Work with your team to review your assessment. Your team will help you develop a plan based on your vision for health.

Step 3: Support for You and Your Plan

Support might include other VA programs, health coaching, or support and encouragement from your friends, family and the community.

Wellness Strength for Life

VA WESTERN COLORADO HEALTH CARE SYSTEM IS PLEASED TO OFFER A VARIETY OF WELLNESS PROGRAMS.

This program is fueled by the power of knowing yourself and what will work for you in your life. What's in the center of the circle? YOU!!! You are the most important factor in determining your health. Every choice you make, whether to eat healthy or not, whether to take a medication or not, impacts your health.

CIRCLE OF HEALTH

The Circle of Health has several areas that are important for achieving the best health and highest level of well-being. All the areas are important, and some are strongly connected to other areas. For each area consider where you are now and where you would like to be.

MINDFUL AWARENESS

Mindfulness is simply being fully aware or paying attention. It's a skill you may have developed and used in the military, like when learning to discharge a firearm. It allowed you to be fully alert and aware of the process from moment to moment to perfect your technique. Taking the time to slow down and breathe allows you to be mentally present and physically relaxed. Your body and mind send you signals constantly. But, if your attention is elsewhere, you don't notice the signals. Then, the signals that began as whispers become screams. Being mindful or aware of your health allows you to make conscious proactive choices.

Recreation Therapy

THE DIFFERENCE BETWEEN LIVING & EXISTING

Recreation Therapy is the provision of Recreation treatment services to persons with illnesses or a disabling conditions. The primary purpose of Recreation Therapy services are to restore, remediate, or rehabilitate in order to improve functioning and independence as well as reduce or eliminate the effects of illness or disability.

Mission of the WCHCS Rec Therapy program is to "Facilitate leisure and recreation modalities for Veterans with physical, mental, emotional, or social limitations in order to promote their health and well-being. RT staff will provide leisure education and develop recreation modalities to promote a better quality of life, independence, and assist in ease of community reentry for the Veterans we serve.

Outdoor Programs

- Fly-Fishing
- Fly-Tying
- Kayaking
- Hunting
- Snow Skiing
- Nordic Skiing/Snowshoeing
- Cycling
- Equine Therapy
- Golf
- Disc Golf
- Archery
- Outdoor Games - Mini Golf, Boccia, Horseshoes
- Pickleball

Indoor Programs:

- Bowling
- Rock-Climbing
- Aquatic Therapy
- Creative Writing
- Beginners Guitar
- Beginners Ukulele
- Tai Chi
- Yoga
- Meditation

National Programs:

- Disabled Veterans Winter Sports Clinic
- Golden Age Games
- Wheelchair Games
- Creative Arts Festival
- Summer Sports Clinic
- Tee Tournament

Speak with your Primary Care Provider to see if a Rec Therapy consult is right for you.

Circle Of Health Areas

Available services vary by location.

EAT WISELY

What would you be doing differently if you could lose 25 – 50 pounds? There are several benefits to eating healthy like weight loss, improved blood pressure, reduced risk of heart disease, stroke, some forms of cancer, gallstones and diabetes, improved sleep, reduced joint and back pain, and increased energy and function. There are several VA resources to help you every step of the way.

- MOVE! Weight Management Program: Classes over the phone, video conference, or in person – Call 970-263-2847 for more information
- MOVE! Coach Mobile App–<https://mobile.va.gov/appstore>
- Diabetes Your Way classes
- Ask your PACT team about a referral to work with a dietitian
- Do you need assistance with food resources? See the Pantry locator at the Food Bank of the Rockies website: <https://www.foodbankrockies.org/find-food/>

Eat Wisely Online Resources	
	
MOVE! Coach Mobile App https://mobile.va.gov/appstore	Food Bank of the Rockies https://www.foodbankrockies.org/find-food/

BE PHYSICALLY ACTIVE

No matter your health concerns, it's generally more dangerous to NOT be physically active. During your military career, you may have been in top physical condition. VA self-management programs can help you set manageable goals to rebuild your physical resilience.

- Yoga, Tai Chi, or MOVE! exercise group
- Team Red, White, and Blue www.teamrwb.org/join/
- VA National Sports Program and Special Events: www.blogs.va.gov/nvspse
- The Interactive Activity Planner from the U.S. Department of Health and Human Services' Move Your Way campaign lets you build a weekly physical activity plan and then print it out. <https://health.gov/moveyourway/activity-planner>
- The VeteransFirst Program provides Veterans and staff of participating VAs access to unlimited yoga, meditation, and wellness classes. Access free classes through 2025 www.Veteransfirst.sofiahealth.com hello@sofiahealth.com 833-MY-SOFIA

FEEL SPIRITUALLY CONNECTED -- VA CHAPLAIN SERVICE

Everyone has an embedded spirituality that can be defined as the desire to bring meaning, purpose and hope into our experiences. Religion is the organization designed to help a person bring meaning, purpose and hope into their experiences. The loss of health, or trauma or grief brings out questions that have simmered under the surface in better times. Chaplains can address these spiritual questions and provide religious resources.

We work in the mental health departments, on the medical floors, and throughout the hospital.

You can request to meet with a chaplain by by calling 970-263-5018. The chapel is located on the 4th floor, room 4001. You are cordially invited to inspirational fellowship services each Sunday at 9:00 a.m. For appointments or visitations, please contact the chaplain's office.

LIMIT ALCOHOL AND BE DRUG-FREE

Veterans are at greater risk for abusing alcohol and drugs than others. Such addictions can lead to many other problems, such as work, marriage, family, financial and health. Take action to overcome addiction. VA Substance Use Disorders Programs (SUDS) are here to help you on your path to recovery. Your provider can help you get connected to these programs.

- Veterans Recover Center: Call 970-263-2824
- Naloxone Distribution and Training
- Learn about alcohol's effects on health. This website provides research-based information on drinking and its impact on health: <https://www.niaaa.nih.gov/alcohols-effects-health>
- Want to check your alcohol use? This quick assessment can help you check: <https://www.cdc.gov/alcohol/CheckYourDrinking/index.html>
- Talk with your PACT
- VetCHANGE Mobile App <http://www.ptsd.va.gov/apps/change>
- Vet Center in your community <https://www.vetcenter.va.gov/>
- For those who need more than outpatient care, the New Frontiers Sobriety and Wellness Center at the main campus provides residential care. Contact: 406-447-6025

HAVE SUPPORTIVE RELATIONSHIPS

Relationships are the backbone of military service. Healthy, supportive relationships - whether they include family, friends, caregivers, fellow Vets, church members, co-workers, or others - are valuable in times of health and illness. There are several resources to help you build and maintain healthy relationships.

- Support Groups
 - » VA Peer Support Groups
 - » Check out your local Vet Center (see page 76 for locations)
 - Vet Centers are valuable resources for information about Peer Support Groups and other resources for connecting.
 - 70% of Vet Center staff are Veterans themselves
- Primary Care-Mental Health Integration (PC-MHI)
- Whole Health, Mental Health, and Recreational Therapy all offer group-based options where you can meet new people and gain support.
- Online Caregiver Support Program – <https://www.caregiver.va.gov/>
- Caregiver Support Line – 1-855-260-3274

MANAGE STRESS AND FEEL RESTED

Sleep problems are very common among Veterans. A recent survey reported that 76% do not get enough sleep; 91% reported feeling tired, fatigued or sleepy during the day. Sleep can make a difference in how you cope with stress. Over time, stress builds up and can lead to physical and emotional issues.

Consider these programs to help with sleep:

- Insomnia Coach mobile app
- Cognitive Behavioral Therapy for Insomnia (CBT-I)
- Primary Care-Mental Health Integration (PC-MHI)
- Path to Better Sleep: <https://www.Veterantraining.va.gov/sleep/index.asp>
- Ask your provider for a referral to a sleep clinic

Consider these programs to help with stress:

- Mindfulness groups available through Whole Health and Behavioral Health
- Mindful Awareness Resources:
 - » <https://www.va.gov/WHOLEHEALTH/circle-of-health/mindful-awareness-resources.asp>
 - » https://www.va.gov/WHOLEHEALTH/features/Reduce_Stress_Through_Mindfulness.asp
- Stress Management workbook: <https://www.prevention.va.gov/docs/NCP-HL-Stress-Workbook-MHC-digital-v03-508.pdf>
- Tai Chi, Reiki, Biofeedback, Mindfulness and are available through Whole Health
- Annie for Veterans: Available through app store but is browser based, not IOS or Android. Receive automated text messages for self-care including medication reminders, tips to reduce stress, and more. This app accesses your VA Electronic Health Record and, for your security, requires you to enter ID.me, DS Logon or My HealtheVet account credentials. Learn how to get your secure logon. <https://mobile.va.gov/app/annie-app-Veterans>
- My Recovery Plan: This site helps you create a daily plan to stay healthy, Create a safety plan for use during or before a crisis and access relaxation tools when you need them. <https://www.Veterantraining.va.gov/recovery/index.asp>
- Massage Therapy: Ask your PACT team for information
- Vet Center in your community: <https://www.vetcenter.va.gov/>
- Homeless Veteran Call Center: 1-877-424-3838.

- Veteran's Crisis Line
 - » Dial 988, then Press 1
 - » Text 838255
 - » Chat online at www.Veteranscrisisline.net/get-help-now/chat/
- Veteran Justice Outreach 970-234-5107 <https://www.va.gov/HOMELESS/VJO.asp>
- Anger & Irritability Management Skills (AIMS) Online Course and mobile app: <https://www.Veterantraining.va.gov/aims/index.asp>
- The WCHCS offers specialty PTSD treatment at our Center for Post-Traumatic Growth. Call 970-263-2824 to learn more.
- Moving Forward Online Course: <https://www.Veterantraining.va.gov/movingforward/>
- Mobile Apps: Available on www.mobile.va.gov/appstore or through your app store*:
 - » Insomnia Coach | Mindfulness Coach | Breathe2Relax* | AIMS for Anger Management | Couples Coach
 - » Beyond MST | PTSD Family Coach | PTSD Coach | Safety Plan

BE TOBACCO FREE

Quitting tobacco is the single most important thing you can do to improve your health. It’s also one of the most challenging habits to change. Studies show that most people make several quit attempts before quitting for good. Those who use Nicotine Replacement Therapy (NRT) products greatly improve their chances of success. Adding a support service more than doubles the chance for success. Consider one or more of these VA resources.

- WCHCS Tobacco Cessation Program. Contact your PACT Team for a referral to the program.
- Nicotine Replacement Therapy (NRT) products prescribed by your Primary Care Provider
- QUIT VET - a free quitline that provides ongoing, individualized support for Veterans enrolled in VA healthcare who are looking to quit tobacco. Call 1-855-QUIT-VET (1-855-784-8838) to enroll.
- Colorado Quitline: 1-800-QUIT NOW coquitline.org
- SmokefreeVET - access tools, tips, & information to help you quit tobacco, and create a personalized plan to reach your quit goals at <https://Veterans.smokefree.gov/>
 - » Receive daily text messages that support Veterans in quitting tobacco. Sign up at <https://Veterans.smokefree.gov/tools-tips-vet/smokefreevet> or text the word “VET” to 47848.
 - » SmokefreeVet is a collaboration between the Department of Veterans Affairs (VA) and the National Cancer Institute’s Smokefree.gov.
- Stay Quit Coach 2.0 is a free, private, and secure mobile app for Veterans who are trying to reduce or quit cigarettes and other forms of tobacco. <https://mobile.va.gov/app/stay-quit-coach>

VA Western Colorado Health Care System Pharmacies

PACT PHARMACY PROVIDER

The pharmacist provider is a Clinical Pharmacist Practitioner (CPP) who works as part of the PACT team to:

- Manage your chronic medical issues by prescribing and adjusting medications
- Answer medication-related questions
- Review and discuss lab results, allergies, and medication

What does the PACT Pharmacist Provider do?

- Provide disease management services, for example: Diabetes, cholesterol, high blood pressure, low vitamin D, thyroid issues, heart issues, tobacco cessation, gout, and more
- Prescribe medication and order labs
- Work with your PACT team to manage your care

PRESCRIPTIONS

There are several ways to get your prescriptions filled. First, you must be under the care of a VA provider. Or you must be approved by the VA for Community Care.

Picking-Up Prescriptions

The outpatient pharmacy is open to all patients on Monday through Friday from 8 A.M. to 4:30 P.M. When you pick-up a prescription at the VA, you need to check in at the pharmacy and can talk to a pharmacist. This is to make sure you understand your medications, the side effects and how to take them. Please ask the pharmacist any questions you might have about your medications.

Mailed Prescriptions

If you aren't getting a new prescription filled, and if you have a 7 to 14-day supply at home, you do not need to come to the Outpatient Pharmacy to pick-up your prescription(s). VA policy is to mail out refill prescriptions with the use of our Consolidated Mail Outpatient Pharmacy (CMOP). VA Western Colorado Health Care System does not have an "automated" refill system. Patients must request refills for their medications and should do so at least 14 days before needed to allow time for delivery.

May I get my prescriptions filled at an outside pharmacy? "Yes"

- You may have prescriptions filled at an outside Pharmacy at your own expense. Your provider may be willing to call or fax prescriptions to an outside pharmacy, or you may be given a paper copy to take to an outside pharmacy.
- Prescriptions from approved Community Care may be filled for a 14-day supply at your own expense. You may submit a receipt for reimbursement consideration to the Community Care Office. Please note that medication supplies in excess of 14 days, non-emergent prescriptions, and subsequent prescriptions, are not eligible for reimbursement.
- Prescriptions from an approved Urgent Care visit may be filled at a local VA pharmacy or local in-network pharmacy for up to a 14-day emergency supply with expense covered by VA

COPAYMENTS

For the treatment of non service-connected conditions, there may be a copayment (copay). Copay is based on eligibility status and the number of days of medication received. If your income is below a certain level, copays may be waived. Copay cost is determined by the 'tier' the medication falls in. Please note: copays and tiers may change every year (see information on medication copayment on page 14).

Copays apply to both prescribed and over-the-counter medications. It may be less costly for you to obtain some over-the-counter medications, such as aspirin, from non-VA sources at your own expense than from the VA with a copay. There is no copay for supplies such as glucose test strips and syringes.

If you have any questions regarding copays, please call 877-222-8387 or visit <https://www.va.gov/health-care/copay-rates/>

VA Copayment Online Information	
VA Health Benefit Costs If you have any questions regarding copays visit: https://www.va.gov/health-care/copay-rates/	

THE VA FORMULARY SYSTEM

What is a formulary?

The VA Formulary is a list of preferred medications available to VA patients. A decision on what is included on the VA Formulary is made at the national level and is based on the benefit and safety of each medication. VA providers are encouraged to order medications that are on the approved formulary. Medications not on the VA Formulary require prior authorization with justification for use, which are reviewed on a case-by-case basis.

Will I be able to get the same medications at the VA that my private doctor ordered?

You are able to get medications that treat all of the problems or conditions that you have. The medications ordered may be different than the ones that a non-VA doctor prescribed.

- Your VA Provider will not simply re-write the prescriptions that your doctor outside the VA was giving you. The VA Provider must complete an assessment and decide which medications are most appropriate for you.
- Community Care/Non-VA care: If you are approved to see a Community Care provider, you may bring your authorized prescriptions to the VA Pharmacy, have your provider fax them, or have your provider electronically prescribe them to the VA pharmacy. Community Care prescriptions must conform to the VA Formulary.
- "Equivalent Medications" are medications that are different from those you received from a non-VA provider, but that are designed to treat the same problem.
- Specialist Referrals: Sometimes your VA primary care provider will refer you to a VA specialist to prescribe a "specialty" medication. Examples: you may need to see a VA cardiologist (for heart problems), an oncologist (for cancer treatment), etc.

Prescription Refill Information

HOW DO I GET MY PRESCRIPTIONS REFILLED? ORDER EARLY!

Order your refill at least 14 days before you will need it. You can order over the internet, by mobile Rx Refill app, by phone, or by returning refill slips to us in the mail.

HERE ARE WAYS TO REFILL YOUR PRESCRIPTION(S):

Internet (24 hours a day – 7 days a week)

Online at My HealtheVet (www.myhealth.va.gov)

First you need to enroll in My HealtheVet and create an Advanced or Premium account: (see additional information starting on page 70)

1. Go to www.myhealth.va.gov
2. Click on the green Register button on the upper right side of the screen.
3. Fill out the registration form then click the blue Create Your Account button at the bottom of the page. Veterans and VA Patients automatically get Advanced accounts. Premium account users can use Secure Messaging to contact their health care team or pharmacist with medication questions.
4. Ask your healthcare team for more information or assistance.

To request refills:

1. Go to www.myhealth.va.gov and click on the green Sign in button on the upper right side of the screen.
2. Click the blue Sign in with My HealtheVet button at the bottom of the next page; enter your User ID and Password then click the blue Sign in button.
3. Select one of the following to open the Refill VA Prescriptions page:
 - a. Refill VA Prescriptions from the Pharmacy drop-down menu at the top of the page or;
 - b. Refill VA Prescriptions link in the Pharmacy box on the page.
4. In the “Select to Refill” column, check the box for the desired medication to be refilled.
5. Select the Submit Refills button

This screenshot shows the 'Refill VA Prescriptions' table. The table has columns: Refill Status, Refill Subject, Fill Date, Refill Remaining, Prescription, Facility, Select to Refill, and Prescription Tracking. A red box highlights the 'Select to Refill' column, and a red circle highlights the 'Submit Refills' button at the bottom left of the table.

Refill Status	Refill Subject	Fill Date	Refill Remaining	Prescription	Facility	Select to Refill	Prescription Tracking
Active	07/24/2017	07/22/2017	9	PHENOLINE 200LS TAB 8047713378		☐

My HealtheVet Online Resource

My HealtheVet

<https://www.myhealthvet.va.gov>

Mobile RX Refill App (24 hours a day – 7 days a week)

This app allows Veterans to request refills of their refillable VA-issued prescriptions, track VA prescription deliveries, and view VA prescription history from the convenience of their mobile device. For additional security, you must have a My HealtheVet Premium account set up to use this mobile app.

- Download the mobile app to your iPhone or Android smart phone by going to the VA App Store page at www.mobile.va.gov/app/rx-refill.
- Sign in to the Rx Refill App using one of the log in options.
- Select the action desired:
 - » Refill VA Prescriptions
 - » Track Delivery
 - » Prescription History
 - » Medication Information on My HealtheVet

Mobile Rx Refill App Online Information		
	Mobile Rx Refill App www.mobile.va.gov/app/rx-refill	

Phone (Automated Refill Line is available 24 hours a day – 7 days a week) 1-877-468-8387

Option 1 – is for Pharmacy

- Before calling, you must have your Social Security number and RX number available.
- Follow the system prompts.

Option 2 – is for talking to a Pharmacy Representative. Representatives are available Monday-Friday from 8:00 AM – 4:30 PM.

Mail

New and Renewed Medications

- New or renewed prescription fills are requested through the counseling pharmacist.
- The pharmacist will locate the prescription in our computer system or manually enter a new handwritten prescription, and initiate it to be processed.
- If there are problems the pharmacist will reach out to the provider on your behalf.
- Your prescription will be sent to mail order and a small quantity may be available to bridge the mail order gap

When you receive medications in the mail, there will be refill slips enclosed for each medication. The pharmacy address is already preprinted on the slip. To request refills, just mail the refill slip. Please send this at least 14 days before you are out of medication so we have plenty of time to process and return your refill.

The VA Pharmacy is NOT like other retail pharmacies!

- Not all medicines are stocked in the local VA pharmacy. Most VA Western Colorado Health Care System prescriptions are filled by the Consolidated Mail Outpatient Pharmacy (CMOP). Even with mailing costs, it is less expensive to have prescriptions sent from the CMOP. Also, automation at the CMOP provides less risk for human error when filling prescriptions.
- Filling new prescriptions is the priority work for the local VA pharmacy. Therefore, when refills are requested at the Outpatient Pharmacy, they will be mailed to you.
- We want to save you time and reduce waiting times for others. Pharmacy waiting times can be reduced if patients with refills are not waiting in line with patients getting new prescriptions. Please use the refill system options identified above to receive your medicines by mail as much as possible.

Protect Your Mail

- Make sure your mailbox is secure.
- Promptly remove mail from your mail box – do not leave your medicines sitting in your mail box.
- Notify the pharmacy and the post-office immediately if you change your address.
- If you do not receive a prescription, report it to the pharmacy.
- Inform the post-master or postal inspector right away if your medicine is stolen and file a police report.

How do I know when to expect my medications?

- Sign up for US Postal Service Informed Delivery
- Sign up for United Postal Service (UPS) My Choice

IMPORTANT PRESCRIPTION REORDER TIPS

- Request your next refill at least 14 days before you need to receive it.
- Use one of the options listed above to request refills on your medications.
- If you are using the phone system and do not understand the questions, choose option 2 to speak to a pharmacy representative.
- If you have questions or prescription problems, choose option 2 to speak to a pharmacy representative.
- If you do not get your refill within 10 days, call the pharmacy and choose option 2.
- Track medication deliveries sent from CMOP online with a My HealtheVet Premium account or the mobile RX Refill app.
- Request prescription renewals using My HealtheVet secure messaging if you have a My HealtheVet Premium Account. Ask-A-Pharmacist secure messaging can be used for non-urgent or emergent pharmacy needs.

Controlled Substances

VA Pharmacy has more specific prescription handling requirements for some medications, typically referred to as “Controlled Substances.” These include, but are not limited to:

Controlled Substances include, but not limited to:		
Opioids (for pain)	Hydrocodone/ acetaminophen Oxycodone	Morphine Codeine Tramadol
Benzodiazepines	Alprazolam Clonazepam	Diazepam Lorazepam
Stimulants	Adderall	Ritalin
Sleep medications	Zolpidem	
Other	Pregabalin	

FOR CONTROLLED SUBSTANCE PRESCRIPTIONS:

- Renewals need to be requested by phone through the Pharmacy Call Center or through secure messaging. It is important to place your request at least 10 business days before your refill is due.
- Pharmacy is unable to provide partial or emergency supply fills without a new prescription from the provider.
- Pharmacy is unable to refill a medication early without prior approval from the provider.
- You may be required to sign for your medication when it arrives in the mail. If there is a problem with receiving medications by mail at your address, you may have to fill your prescriptions in person. Discuss this with your healthcare team.
- Plan ahead! The pharmacy may be closed on weekends, holidays, and after regular clinic hours.

VA monitors use of these medications closely because there is more risk with their use. It is very important for you to tell your provider if you receive any controlled substances from outside the VA. Your healthcare team is required to track when you renew and refill controlled substance prescriptions from both inside and outside of the VA, using state-run prescription drug monitoring programs. They will check before you start a new controlled substance prescription and periodically thereafter, for as long as you continue to use any controlled substances. Urine drug testing is required at least twice a year for most Veterans using medications for pain (including opioids).

Veteran Health Education

VA Western Colorado Health Care System provides a wide range of educational programs and support groups on a variety of topics to help you and your family members. Your health care team is a great resource for health information. Ask them!

We also provide printed handouts and pamphlets on a wide-range of topics. Ask staff for copies on health care topics of interest to you. In addition, you can also access handouts on almost any topic from your home computer by going to the Veterans Health Library...

VETERANS HEALTH LIBRARY

VA's health information website is available 24/7 via My HealtheVet (www.myhealth.va.gov) or at www.Veteranshealthlibrary.va.gov

What is the Veterans Health Library (VHL)?

The VHL provides Veterans with an easy to use source of up-to-date health information reviewed by VA clinical experts.

Benefits of using the Veterans Health Library?

The VHL provides information on a wide range of health topics, including wellness and prevention, understanding a diagnosis, making treatment decisions, preparing for a test or procedure, rehabilitation and recovery, medications and self-managing your health.

It also includes Veteran-specific health topics such as posttraumatic stress disorder (PTSD), combat-related traumatic brain injury, and Agent Orange.

The VHL offers thousands of resources including health sheets, booklets, and videos, as well as workbooks on how to manage specific diseases. This health information can help you:

- Live healthier
- Prepare for health care visits
- Understand medical conditions and treatments
- Partner and talk with your health care team
- Share in health care decisions and be more involved in your health care

Veterans Health Library Online Resources	
	
My HealtheVet https://www.myhealthvet.va.gov	Veterans Health Library www.Veteranshealthlibrary.va.gov

To find the health information you are looking for:

From the VHL home page you can view specific topics in a few ways.

- The home page features different topics. Simply scroll down the home page to view these topics and click the underlines title to view more.
- The “Health Encyclopedia” A-Z index will list topics in alphabetic order which is helpful when unsure of the name or spelling.
 - » The tool bar can be used to search a category such as:
 - » Living well
 - » Diseases & conditions
 - » Tests & treatments
 - » Medications... etc.
- The search box can be used to find a specific topic you are interested in. Use your mouse or the up/down arrows on your keyboard to navigate through the suggested search terms.
- If you didn’t find what you were looking for, try placing quotes around the keywords and searching again. Adding quotes to your search term will return more specific results.

There are videos available in the Veterans Health Library:

There is a video library and other multimedia tools. On the home page, last gray box on the right “Additional Resources”, you may link to the Multimedia section which contains:

- VHL Library’s video content
- To view the featured video, simply hover over the arrow to preview it.

My HealtheVet

MY HEALTHEVET IS A WEBSITE JUST FOR VETERANS WITH LINKS TO:

- VA Health Records
- Secure messaging
- Prescription refills on-line
- VA Appointments & Labs
- Logs & Journals
- VA news and services
- Library of healthcare topics

My HealtheVet is VA's online personal health record. It was designed for Veterans and caregivers. My HealtheVet helps you partner with your health care team. It provides opportunities and tools to make informed decisions and manage your health care.

FEATURES ARE AVAILABLE BASED ON YOUR ACCOUNT TYPE.

Basic Account:

Online registration gives you (or your family members) the option to enter personal information, look up VA benefits, and use the health library.

Premium Account:

If you "authenticate" and upgrade to this account you get access to your VA appointments, health records, secure messaging, and much more.

After you register, your account type will be displayed in the Member Login box, with an icon after your name. For the Basic Account a after your name and for the Premium Account a after your name.

My HealtheVet Basic Account Features:

- Add information to a personal health journal: over-the-counter medications, allergies, military health history, medical events, and tests.
- Record and track personal information: contact info, emergency contacts, doctors and providers, and health insurance.
- Monitor and graph personal health measures in Vitals & Readings: blood pressure, blood sugar, cholesterol, heart rate, body temp, weight, and pain level.
- Print a wallet ID card.
- Set goals in "My Goals"
- Complete a Healthy Living Assessment
- Link to the Veterans Health Library

My HealtheVet Advanced Account Features:

This higher level account is for those who register as a VA patient. It provides you the option to view some information in your VA and DoD records and allows you to refill VA prescriptions online.

My HealtheVet Premium Account Features (*Authentication Required)

If you are an enrolled VA patient and upgrade to the premium account (<https://www.va.gov/resources/get-a-premium-my-healthevet-account/>), you can:

- Access parts of your official VA health record
- View VA Appointments, Lab results, and Allergies
- View VA health records using Blue Button
- View your electronic DoD Military Service Information
- Use Secure Messaging to communicate with VA health care teams

Blue Button Download My Data

Use VA's Blue Button to view, save, download and/or print your VA health records and available DoD Military Service Information (after 1980). You may also share this with your caregiver, non-VA provider or others you trust.

With a Premium Account, you can use the VA Blue Button to view key portions of your VA health record that may include your VA:

Admissions and Discharges Allergies Appointments (future)	EKG Immunizations Laboratory Results Medication History	Pathology Reports Progress (Doctor's) Notes Problem List	Radiology Reports Vitals and Readings Wellness Reminders
---	--	--	--

Secure Messaging:

It is a secure, web-based message service that allows you to send non-urgent, non-emergency health information and messages to your VA health care team. You may send messages to request online prescription renewals; ask about lab results; and request or cancel VA appointments. Health care teams have 72-business hours to respond to a message, but often reply sooner.

In addition, you may:

- Download your VA Continuity of Care Document (VA CCD). This is a summary of important VA health information from your electronic VA health record.
- Use the Healthliving Assessment (HLA) tool to determine your "Health Age" under the Track Health Tab. HLA helps you set health goals. You can send your HLA to your healthcare team using secure messaging.

***Authentication:** An identify authentication process is required to access the Premium My HealtheVet account. The process verifies your identify before allowing access to your VA or DoD records. Get Authentication at a VA health facility Release of Information or My HealtheVet Office.

My HealtheVet Help Desk: If you need help with your account or have a concern Call Toll-Free at 1-877-327-0022 Monday – Friday, 8:00 am – 8:00pm or 1-800-877-8339 (TTY). The local Grand Junction My HealtheVet office is located in room 1007B and can be reached at (970) 263-5014. In person assistance is available during normal business hours.

Patient Rights and Responsibilities

RIGHTS AND RESPONSIBILITIES OF VA PATIENTS AND RESIDENTS

Copies of the Rights and Responsibilities are posted at each of our sites. The key tenets of your rights include your right to:

- Nondiscrimination and Respect
- Information Disclosure and Confidentiality
- Participation in Treatment Decisions
- Concerns or Complaints
- Additional Rights for Community Living Center Residents

If you would like a full copy of the Patient Rights and Responsibilities, please contact your Patient Advocate.

RIGHTS AND RESPONSIBILITIES OF FAMILY MEMBERS OF VA PATIENTS AND RESIDENTS OF COMMUNITY LIVING CENTERS (CLC)

The key tenets of the Rights and Responsibilities of Family Members include the right to:

- Nondiscrimination and Respect
- Keeping Health Information Private and Secure
- Partnering in Care
- Family Members' Role in Treatment Decisions
- Visiting the Veteran
- Concerns or Complaints

It's essential for patients to treat VA staff with respect, as these dedicated professionals work tirelessly to provide high-quality care and support to our Veterans. By showing courtesy and appreciation, patients contribute to a positive and compassionate environment, which benefits everyone's well-being. Respectful interactions help foster trust and effective communication, ensuring that staff can deliver the best possible care.

Patient Advocate

PATIENT ADVOCATES ARE AVAILABLE TO ASSIST VETERANS IN NAVIGATING THE VA SYSTEM, ENSURING THEY RECEIVE THE CARE AND SUPPORT THEY DESERVE.

These dedicated professionals are here to listen to your feedback, whether it's positive or highlights areas needing improvement. By providing personalized guidance and addressing your concerns, Patient Advocates work tirelessly to enhance your experience within the VA system, making sure your voice is heard and your needs are met.

To solve your issue as quickly as possible, please take the steps outlined below:

- Try to solve your issue at the point-of-service. Please discuss your concerns with your provider, caregiver, or support staff.
- If the staff do not resolve the issue to your satisfaction, please ask to speak with a supervisor or the Administrative Officer for the Service.
- If your concern is still not resolved after meeting with the above staff, please contact a Patient Advocate. The Patient Advocates work on your behalf to ensure your satisfaction with VA health care services. They work directly with management to seek resolutions.

Contact the Patient Advocate Office at 970-263-2826.

If you believe that the organization has failed to address your concerns about suspected criminal activities, fraud, waste, abuse, or mismanagement, you may contact the VA Office of the Inspector General at 1(800) 488-8244 or email vaoighotline@va.gov.

Ethical Concerns & Patient Care

Ethical decisions often involve a conflict of moral values and beliefs. Each medical center has an Ethics Consultation Team. Qualified consultants are here to help you with the difficult decisions you may need to make.

TYPES OF ISSUES THAT VETERANS (OR FAMILIES) MAY NEED ADVICE ABOUT:

- Patient Rights
- Do Not Resuscitate Orders
- Advance Directives, Living Wills
- End of Life issues
- Health care agent issues
- Honoring of religious beliefs

ETHICS CONSULTATION TEAM MEMBERS:

Ethics Consultation members include administrators, patient advocates, chaplains, social workers, nurses and providers.

WHAT HAPPENS WHEN AN ETHICS CONSULT IS MADE?

A member is assigned to serve as a consultant to help address the issue or concern.

The consultant will:

- Identify an ethics question/issue.
- Meet with all the parties involved and listen to each person's concerns
- Review and explain policies that need to be considered in reaching a decision
- Research issues
- Make recommendations
- Help develop a plan

WHO CAN REQUEST AN ETHICS CONSULT?

- Patients
- Family
- Staff

Patients and family members can access the service through their Social Worker or the Patient Advocate.

There is no charge for this service!
